

432nd Knowledge Seekers Workshop; May 12, 2022

(Quick Index 10 p proofed; Transcribed both parts mostly; Part 1 proofed need to Proof part2 ; Key Phrases, Words,) (Auto transcription . Elias)

Practicing traveling with STM in dream and waking - manifest physicality;

Short Index

Past few teachings special; Plasma spaceship won't dissolve in space; Elevate Souls defects in body corrected; He has flown across U with system; Dream travel is actually Soul travel - can manifest body in dream; Bright lights in sky are souls; Creator Unicoise expanding into larger structure; Knowledge goes by Devotion and Love of Creator; Tested to limit - understand what I have missed in humanity; Cannot lie in EU - more tumors lie to self; Man is cancer in embodiment of Creator; Won't destroy this planet - transform it to stop killing; Tested EU elevation in seconds; Before sleep decide on where you will travel with Soul; Satellites around earth to satisfy all needs; Brazilians try to steal T for Med Beds - don't work; UFO lower matter state; STM will absorb higher order can manifest in any D as of that D; Children of Mitra will teach man; Don't leave body in EU - not mortuary; Can meet Christ; Why people are cruel - upbringing; Dentists attack people with drill and justifies it; Ukrainian situation war between Churches - why they didn't find peace; Single KS with deep wish can bring world peace; Confusion in neutron decay - depends on condition; Different arrangement of COHN - creates different cells; Cells are recycled to step down or up in energy - transformed into other cells, when no use than rejected; South China most beautiful landscape in U; Consciously travel with soul and manifest physicality in Tibet, others witnessed; Belgium culture accept sexual abuse of children by parents for money; Practice traveling with Soul; Vacuum teaching - not fields but collection of plasmas; Our intention fulfilled when we want to help others or totality .. Spaceships in earth are crash landing of UC tourists, come to see plasma inside earth; malfunctioning UFOs trapped in earth ; Even Creator made mistake with Man and his destruction habit; Teachings are not random - well structured ; It's not lucid dreaming - multitasking - working in 2 dimensions Soul and P; Mr. Keshe is 90% working at same time in the Soul D; STM downloading all information to reproductive units all the time to pass on changes

Quick Index

The teaching is open ended - guided by the soul; Teaching will not finish as long as man exists - knowledge of Creator (is eternal); Past few teachings went in a deliberate different direction to deepen what has been taught over past 12 years; Some KS have grasped the concept of creation;

Will setup space reactors in lab to create a plasma spaceship, non-tangible without matter state; Because matter state spaceship made of C and H - vulnerable to diversity of fields of the U - can dissolve; The craft may loose containment but reactors designed to hold (their containment); reactors tested before placed; Try to make plasma fields without

containment - the way Sun and Earth work; We don't use aircraft hangers - nothing but the (plasmatic) controls;

Our process is not to land on the Moon but to achieve the strength of understanding the new dimension - to introduce to the man a new method of flight, the way it is done in the U; No control panels - no landing gear - nothing like we are used to with aircraft; But it might not fly - but we will have brought the new concepts into the space game; It works in D of the STM and not physicality; Flight by interaction of the fields;

Important to understand elevation of the STM and STP; We'll see many defects within the body of the Man will be corrected by the wishes of the STM and STP; The new FEU is a breakthrough in science; In the past we were always carried to our destination by something else; Now we become the containment of the fields - the spaceship - and travel by the soul; As of this week we have entered the era of true space flight technology;

We don't have a countdown because we don't fly in this exact minute; We fly when the soul of the pilot matches the soul of the system and the soul of the control - then we'll see the bright light (in the sky).

As a passenger of the U, I have flown across the universe many times with these systems. I know it works. Now we have to teach the man; Your matter state spacecrafts will not hold itself together in the fields of the U - you will fall off in the depths of the oceans of the fields of the U when the structure of your material matches the plasma condition you are passing through; These pitfalls occur every 100 km; We have put these T on the table for space travel, but you have to carry them forward; We do not need governments, military forces, or astronauts - you are the captain and you have lived with and trained your soul (all your life).

I have advised our team putting these reactors together - do not enter the zone of the reactors to see how it feels and interacts out of curiosity. Just allow it to be there. A butterfly flying in that zone, can fly the system, if its soul matches the soul of the system; Remember when you see this planet from a distance you don't see a president or a dog - you see all as shining stars. By the grace of the Creator, man has entered into the knowledge of the creation on a fast track, without his knowing; We have taught enough, and we will see the outcome; FEU are tested inside the buildings - you may say, but there is no opening in the roof for it to get out?; Last night you traveled with your soul - but your body didn't move from the bed - and you had a chat with your father who died years ago;

In the new space T do you need to fly the system; You fly with your soul and come back and tell us what you saw. But it was not a dream, it was the reality; You can choose between the STP and the STM where you want to be; When you had a dream you were walking on the Moon, did you see yourself in the space monkey suit of NASA; Your soul travels and takes the condition of where you go; This is a breakthrough in T and we'll see scientists becoming KS - and bring in the change; NASA scientists recommend

KF teachings and Chinese have already built KF spaceship - because they asked us how to make the fuel;

That bright light you see in the sky maybe souls traveling across this planet - before we never knew - now we understand;

The next cycle of teaching transportation and transmutation, there is an even higher order D than what we are teaching today, but Man is not ready yet, nor is the whole of the universe.

The U and Unicose is expanding into a larger structure; The Creator is Itself contained within a larger structure of the light - when that light reduces in strength it becomes the strength field of our Creator; What is the origin of the M fields that led to our Creator. That It Itself is part of a bigger process. How can you be loved, if you don't have a lover. How can you be created, if there is no Creator for you? Who created our Creator?; The whole process of the creation is never ending;

When you enter the EU you could be a peasant on the mountains of Himalaya, and with the first entry, you will reach close to the center of the spiral. Or you could be a king and not even reach the starting point of the spiral. It goes by devotion and sincerity and the "Love of Creator." Then the king will envy the peasant.

Those who reach the higher points will come back and tell us their stories, which to us will be unbelievable. But it's the truth and we have to accept it. How much are we devoted to confirmation and completion of this process? Then how much you are committed to bring that change within yourself. We get tested every minute;

I've been tested to my limit in past 8 weeks by Knowledge Seekers (KS), and I still stand firm, understanding that the KF and the change for humanity is more important. But we have to understand them and see what they are made of. There are KS amongst you who are the most abusive people to the whole of the KF work, but you worship them.

It was for me to be tested to the ultimate goal to understand how much I've understood, from the human race. It was not for them, they were tested and failed miserably. But it was for them to find the position and the time. But it was good, because we saw a new face, we saw what we need to correct, to elevate, for these souls to understand more. For me to understand what I've missed, in understanding of the work of this humanity.

The EU works with the true wish of your soul. If you go in with 1 tumor but come out with 10, it means underneath you want to die faster. You cannot hide the truth from your physicality. Somewhere inside you, you see the death as a solution to your misery;

The STP cannot be overwhelmed by the STM. The STM is a provider, it's the STP who has to understand. We cannot lie to our physical soul. When you come out of the EU, you'll understand your true wish, not what you wanted to show (to the others). I made man in an image of Myself. (If God) cannot lie to His physicality, how can man;

Every physical body has a defect that can lead to cancer, if you let it grow;

The embodiment of the Creator, which includes the man, has a cancer in its process of creation. Do you take the cancer out, and (then) it will grow bigger? Or do you find a remedy for the cancer to find its space and position, that it does not become a cancer. This is what the Creator has decided about the cancer of the Man in the cycle of the creation, that this process of killing, this process of destruction will not expand to the rest of the Universe. This is why the present teachings and enlightenment are going on. So that man comes to understand, he is a cancer in the process in the embodiment of the creation and the Creator, by his ways of destruction and greed.

If needed the Creator can destroy this planet with a wish. But we don't destroy. We will not be gotten rid of. You have to find a permanent solution, that the cancer does not grow, and it becomes useful part of the body of the man, like evolutionary cancer. Evolutionary cancer in the body of the man gathers data and information needed, so that it does not repeat the problems in the next cycle, and allows the evolution.

The whole purpose of these teachings is to get rid of this cancer of the body of man, its methods of killing and destruction, from within the structure of the U.

When you enter the FEU your true wish (is fulfilled). Some people may go in and say nothing happened, because you lied to yourself. You can travel with your soul in the EU, and manifest a body at your destination.

We tested the systems and they work. We saw the change in the evolution of the Soul and Physicality, within microseconds; The system went to find the peace, the what we call, balance between the STM and the STP, which is controlled within the heart, and it tunes again, and it tunes again, and tunes again. If it does not find a balance, it stops.

I hope many of you will find pleasure when you enter the dimensions of the fields of the new space travel. Where you shall never lose your spacecraft, where your spacecraft will not dissolve and evolve in different field strengths, where you are the star, where you are the soul of the travel.

Before you go to sleep at night you can decide where you want to travel with your soul; Through the soul you can eat steak at restaurant but no animal killed, you get the feeling of what you want. No man shall die of hunger; More than 15% children in USA go to bed hungry, and only 3 to 5% in Africa.

In reality, thanks to many KS who are working in the background to bring this technology forth. We'll bring the change for you. The change is here, it's for you to come and see, understand, and extend the knowledge; This is an "open patent", patent of the creation, the Creator, the knowledge of the creation to live, and to be part of the living souls of this planet and beyond;

Maybe by 6th of June you will see the show. Many of you will not feel a thing, but many of you will come to see the dream you dreamt, they call it the American dream. They call it the dream of the creation. The dream which comes through instantaneously, if you are correct with your conduct, conduct of the wish of the soul, and the STP of the man.

Some of you will go in EU with 10 tumors and come out with none, because your purpose was to enjoy the life, and not the tumors, which accidentally came on your path. You were there to serve, to serve your Soul, to serve the soul of the others, and then you find the elevation in the Totality.

Then in the near future, we put systems in satellites around the earth like moons, that will keep the planet in the continuous fields, that all souls will be satisfied to be nourished. No one shall rule over another. These are not dreams, the systems are present and ready in Austria.

We have hidden the knowledge of Universe within these systems, and no man will be able to replicate it without the knowledge given truly by the way it has to be. They carry my soul, without it, you have no soul to fly. No one can copy the systems.

Some Brazilians went to Linz EC under the false banner of wanting to setup KF Institutes in Brazil. Really they were trying to steal the technology, because the Med Beds don't really work. Otherwise, why would they try to steal something that is given freely.

The knowledge belongs to you as KS, but you have to understand, and be correct in the conduct of the use and application of the T.

Those who travel the U in UFOs have failed to understand the process of the Soul travel. (We are teaching the soul travel to the human race), then those in the spaceships will envy the people of earth, because they understood the true meaning of space travel; We have given you the freedom of your soul and the U;

You have to go through the process which we have set to teach you, so you understand the elevation of the STM, that it can absorb the energy from a higher order to feed the dimension of the STP. That way you can manifest in the matter state and become visible. You can reduce your strength to dimension of the place and time of the manifestation. That way I, as a human will see you as a human, but a man from Mars will see you as a Martian. (This applies to anywhere in the Unicose).

Mankind has entered the process to understand the life of Mitra and the cycle the children of Mitra will go through. They will not kill or destroy another life. And they will pass this information and knowledge onto the new children of the man, what we call, the children of Mitra.

Then we'll see the beginning of the new. We'll still fight, struggle, go through hassles, and (manufacture) the T for the knowledge to be shared with the governments and others.

Because through using the T they will change. It's not for us to do magic. If you hear the stories of those who have been through the EU, respect them. Because ridiculing it shows your lack of understanding the process, and not that they don't speak the truth.

When you see your mother who died 20 years ago, and she says, she has a pain in her stomach, or in her arm. She may be trying to tell you something, because she is the reflection in the mirror of the pain, because she has no physical dimension to suffer pain.

We have to learn how to interpret our soul experiences or "dreams," rather than having somebody else interpret them for us.

With the new knowledge the length of our lifetime will be the lifetime of the U. We need to keep busy. EU are the sandbox for man to learn the knowledge of creation. For example, you are in the EU in Linz, and you travel with the soul to your uncle in Beijing, and then you mother calls your uncle, and he says, you are sitting with him in Beijing. (You have manifested physicality, while traveling with the soul).

We are not in a dreamland, we are not talking about what could be done. It is done. The technology, the system for delivering it, is built, is available, and with it, will come the extension of the knowledge of the man.

Please, when you use the EU, wherever you go, remember to come back and pickup your body. Bring back the knowledge to elevate your physicality and then take it with you. Our systems are not mortuaries. And don't go somewhere for days at a time and just leave your body in the EU.

You can become passengers of the universe, detached from physicality, or stay locked to the UFOs. The Totality is given, it's for man to decipher the knowledge page by page.

The Books are written in the words of the Creator, and not in the theology of lies. You can test it, and maybe with it, you can prove the lies in the theology of the churches, mosques, and temples. If you truly understand, you can have the Last Supper with Christ, because the wish is there, and it's there to satisfy the wish of truth, not mine, and not yours.

Thank you very much for today's knowledge sharing and I hope you understand, that juggernaut has hit you all. How you're going to recover with it, and from it, depends on the level of your understanding of the knowledge of the creation.

End of Part 1

>>>>

A KS was questioning why people act cruelly to others. Traditionally it was taught that in order to experience love you first have to experience hate, or the opposite. Mr. Keshe said, " Why, why do we need to know that side, to know the other side? It doesn't make sense?"

Is it a mistake, or is it an experience we have to learn from? When you fall in love, do you look at what is wrong with the person, entity, or whatever you fell in love with? Or you just look at the positive side, and you build on it. When it comes the point when you don't receive what you expected, then your love can change it to hate, because you created an expectation.

We come here to experience the human life, so that we can enhance it, and prevent the bad things like killing and destroying. You don't need to leave the earth. We transfer what we learn to other people;

We do not prepare ourselves for the bad things that could happen to us. We do not understand the reason. If we are prepared for it, we could go into the dimension of the Soul, that the physicality isn't there to be abused?

Q: But why is it that I don't go and do these things, and beat up someone?

K- We are not brought up that way. You do something else, you go and attack them in their mouth with your dentist drill, and you think you're doing a good job, because you're a dentist. You are still attacking them, because you're trained, and then you justify it. You put them through pain, you give them the injection. Can't you teach them so they can sort the problem out for themselves, and teach them how never to have any tooth decay.

The reality is for some of us, we don't know how we will react when something bad happens to us. We don't even remember how we reacted. It's a sequence of things, which we go through, and it's automatic reaction.

We don't go out to destroy or harm. But why other people go out to harm, we don't know. They have their own reasons, their own mindset.

We know the reason and the background behind why the Russian leadership, the Russian church, and the Vatican didn't try to work this out in a peaceful manner, so it didn't have to get to this point. Or is there something as the human race, we have to learn in the final stages (before the end of) the killing processes for the religions. Vatican did the same thing in Northern Ireland, they fought for 300 years to get back the Church of England, which they are now in control of. This Ukrainian situation is not just a few skirmishes, it's between Churches.

Where have we forgotten the language of peace;

If one of you KS would enter the Flight Enhancement Unit, and if you have a truly deep wish from your soul to elevate the world leaders, then they all will be elevated, and in the coming years you'll see the change. We are not talking about doing something fashionable - "oh, I want world peace." But a wish so true that it reaches the goal.

You can also do it collectively. Maybe one of you can reach 1 leader, and another 10, so that collectively you can reach all of the world leaders to walk away from war. Because you are sincere, you bring the other souls to your level. This is the way the EU works,

your energy is lower, and the EU is higher, so it gives to the cancer cells to elevate them. The souls of the world leaders are like the cancer cells, we elevate them. This is the beauty of the new world and science we are bringing.

There was a confusion about neutron decay in the Farsi teaching, that sometimes it acts in opposite ways. Mr. Keshe said, you have to listen to the whole of the teaching, not just parts. It depends on the context of what's being said about neutron, proton, and electron, and which is STM, STC and physicality; It's the interaction of the proton and electron, which leads to manifestation of both. H decays more than any other element - it's a source of energy; In the AA structure, the H forces the N to release its energy - it absorbs part of it for itself;

Important teaching; How the COHN of the AA is arranged, the positioning of the different components determines what kind of cell it can become, for example, in one position it's good for the brain, in another it can become a cell for the heart. Plasmas are 3 dimensional and active; Positioning the O in a different location doesn't make it an isotope;

Cells as plasmas are recycled, and only when they cannot become another useful cell are they rejected from body. For example, when the energy of a brain cell is used up, it can become a cell for the leg, it continues on like that until it cannot be used anymore. World of biology has not understood this. This process can also transport cancer cells, the codes of the energy fields; We see this kind of cell recycling with the women's monthly menstruation, the Ca of the hips gets used to prepare for the potential child, it can go to the breast and store it. This recycling process is a step up, and step down in the energy of the cells.

South China landscape where they filmed Avatar is one of most beautiful in the Universe; The Creator is the reality, our life is that imagination we built on it, and we want it to fit, that they become one. It's us who has to understand it.

KS felt he was able to consciously travel with his soul to another place. He had the feeling of being there, but needs to develop it further.

K- It goes by testing, or detachment.

Belgium lady who was sexually abused as a child, could travel with soul to Tibet and manifest herself in a physical body, where Tibetans could see her. She returned to her body after they finished abusing the physicality. The meetings in Tibet were confirmed.

It's normal in Belgium for the parents to take their daughters to get abused, they get paid for it. If they do this to 2 daughters, and one of them accepts she is thin, the one that doesn't accept it becomes as fat as possible so men will stay away from her.

KS can plan before going to sleep where they want to travel to with the soul.

Maybe we created sleep for this purpose. Sleep is not for physical repair, it's for our soul to have this time to be on its own, because the physicality is locked to the bed.

Practice to become conscious of where you go during the sleep.

The KS says, I want to make it clear, that it was not a dream, I was conscious during the whole process. Mr. Keshe, yes, I know and gives more advice.

When some of you go into the EU you will reach that point. You will your eyes will be opened to a new dimension. It's not an out of body experience, like what they wrote in the chat. It is you deciding where the soul travels to. (You live a dual life, one in the soul and one in physicality).

Teaching about vacuum;

What we call vacuum, is a matter state combination of plasmas, that do not exist under a given pressure.

We don't have that in the world of creation. What we have are fields, rays and particles. It depends when the fields become a collection of plasmas. We cannot have a vacuum of fields, but we can have a vacuum of a collection of fields, that we call, plasmas.

Even a 100% vacuum in the world of matter state is impossible. Because we cannot create a field extraction strength of the (complete spectrum) of energy. We tested this quite a lot in the lab.

Under vacuum our nuclear sources work better; The fields are still there as a ray, nuclear atomic ray, but we extracted the collection of plasmas; But then what happens is, the CH bond of the plastic in which the reactor is made out of, starts releasing materials that we are trying to vacuum out; So we don't really have the vacuum we think we have, very difficult to create a vacuum; Another way is to open a "curtain" between plasmas to get a temporary vacuum; We use this to allow cosmic rays in. It needs a very much deeper understanding of release of fields in dimensions where you can control it;

Zero field vacuum of the full spectrum of fields is impossible It does not exist anywhere in the Universe. Because there are always fields. It's like neutrinos, we don't see them, but they pass through us;

Using Nano coating is possible but it depends on what you understand and how you use it; You cannot put a mechanical system to block the fields; But the reason you see a Nano layer black is because you create trap holes for the fields. This is a technique, which we have developed over years;

You never have these problems to solve when traveling with the soul, because we dream every night.

Our intention is fulfilled - when it's for the totality - for others

(When you want something), it depends on for what reason you want it. If the reason is correct, and it's not (just for) you, but for the benefit of others, or another person other than yourself, you can always reach it very quickly.

(It doesn't matter if we think it is too late to do anything.) If the desire is sincere, and it's for elevation of another soul, or a Totality (of something), it always works out. Physicality is just a servant. (In the KF,) we see this on a regular basis. I reach Knowledge Seekers (KS) through the wish of the what I call, enlargement, elevation of the soul of the Foundation and humanity. And it is always answered. Later, we settle the things in physicality and what's going to be done.

KS will gradually come to understand this. (When you start working through the Soul, you think differently about things, but your soul works to bring the same result. There is a very big difference between working through the Soul and working through physicality, (or working through your thoughts and ideas).

You say, "I was just thinking about it, or I just felt it." It's not that. (Some unknown force is at work. The souls work in the same way as the physicality, the same understanding, and for the same purpose. It doesn't matter what happening around it. (Keep faith with your soul and your intention to help the others and it works out).

A KS asked about the immense spaceships found underground around world, are they using the same space plasma T?

K- I haven't a clue about what you are talking about. I have heard about it, but this is not in line with the reality of how people of the U travel. Earth is a tourist attraction for UC. They go into the center of the earth to see the beautiful plasmas inside the earth. A malfunction happens and then they crash, just like when our aircrafts crash. They also have rescue teams to transfer survivors out.

Even at the level of the Soul, if you get it wrong, you can get trapped in a stone; We lose many of our earthly beings, in the space travel due to accidents, and malfunctioning of systems. Just because you think you've got to the plasma technology or you can fly with a UFO, doesn't mean you won't have problems;

Don't think that space technology will be all hunky dory, that's it, 'now we travel,' even though we give you shields, protection, and the high speed transmutation. This is the effect of the field plasma of the universe, which we interact with. Nothing is 100% air tight, and fool proof.

Even the Creator made a mistake when he created Man, He didn't keep an eye on the ball.

KS thinks the teachings are like reading random chapters in a book.

K- Nothing is random, because we have, as I said, a diversity of the knowledge and diversity of people as Knowledge Seekers. In this classroom, we have to teach all the different children together at once. It's like when you go to a village that has only one classroom, and 20 children of different ages. We have millions of listeners, and we have a spectrum of knowledge to teach to all of them. Every time we teach we cover one part, (but everybody is learning something from it according to their understanding). At the same time we are adding to the knowledge ;

My soul is aware of the need at the time, place, and what needs to be taught. It's not sporadic, it's very, very well designed, and it fits into what each one needs;

We are very well structured. I don't teach by the man's knowledge, I teach by the direction of the soul, and most of you have understood this by now. I never carry a note. The teaching is taught through the soul and a dimension, which is done by the process of the creation, step by step. We are Messengers, we are not here teachers, and you have to teach and you have to follow. As I said to one of our Knowledge Seekers yesterday, or the day before is, you have to be there just to share, and not to dictate. The teachings very precise and it's exactly on course.

We are Messengers of the Creator and we have no problem. We share knowledge freely, because it's part of the structure for man to elevate himself. It doesn't matter what they try to put on us.

When you look, how many kings and queens, and world leaders do you remember from the time of Christ? You're still looking? Because it's the king of the souls, not dimension of physicality. It's the same soul (that teaches), it doesn't matter which way you turn it, or what name and time you give it?

Lucid dreaming Teaching:

KS asks about lucid dreaming; Has been to many beautiful worlds and dimensions as a child. His teaching resonated and asks for more clarification.

K- Let me explain. I have done this before, maybe we explain it in a different way. This is the body of the Man (draws a circle), and this is the STM (draws a dot in center). In different layers of the structure of the brain ... We have different things, memories of the senses of smells, positions, of love. In physicality the different parts of the brain have different functions. The physical cells remember the interactions. It happens that the STM also interacts with these same cells. In a way, this is what they call lucid dreaming, when you get the interaction between the STM and the physical cells.

There is a thin circulation of blood around the skull, but still its field strength is very effective to hold the soul in. When you go to sleep, it changes and weakens so the soul can travel out, what you call dreams.

We don't consider it lucid dreaming. You are actually in both dimensions of the P and the Soul. It's multitasking;

Every cell in your brain has a soul, and that soul has the strength to interact with the STM. Because then it carries the emotion of physicality, and emotion of the Soul. Once you understand it, then the life becomes very, very simple. (Is it that when we become aware of our Soul, then we get connected to the whole of the body?).

There is a reason why the physical life on this planet always has two ends, the STM at one end and the soul of the, what we call reproductive unit at the other end. Both sides interact to feed, register, and memorize. The STM is constantly downloading information as RNA and DNA to the reproductive unit so that it ready to pass on all the information that it is gathering to the next generation.

We have a lot to learn, but you don't lucid dream. Now you understand, that you are working on two levels all the time.

I live in D of the soul 90% of the time. They tell me I am asleep, but really I am awake. They say, but we hear you snoring. I said, yes, that's the physical side, but I'm busy doing other things. (I am working in the soul D 90% of the time.) Then they say, we talk to you but you don't hear us. I don't hear you, because I'm too busy doing something else. It's a 24 hour work, it doesn't stop.

SUMMARY:

ENGLISH TRANSCRIPTION

Part 1 proofed working on part 2

(:18).

Start editing auto transcription

K- Yes, good morning, good day to you as usual. Whenever, wherever you listen to this series of Knowledge Seekers, Keshe Foundation Spaceship Institute. Series of teachings we welcome you back. Another record adventurous teaching. As usual, we do not know where we start, and we do not know where we finish by the end of the teaching. This is an open ended teaching cycle. It will not finish, as long as the man exists, there is always understanding of the knowledge of the Creator.

Past few teachings special to prepare

In past few weeks, I deliberately started teaching in a different direction, and in a different way, especially in the past three or four teachings. There was a reason for it. That to open up a new line of understanding, but deeper understanding of what was taught in last 10 to 12 years. (:20). Some of the Knowledge Seekers (KS) understood and they have managed to grasp the concept of the creation. And it is interesting to see

how the next steps build up, how we'll endeavor to take flight, how do we looking to understand the next steps in the flight systems (FS).

Use reactors to create non-physical spaceship - plasma

In our laboratory, we are just about complete the first space reactors, completed within the next day or two. But what is interesting for me is not to put these reactors in the Enhancement Unit (EU), but to assemble these reactors in the space of the lab, and see if we can create the spacecraft without the craft (without matter state).

The reason for this is very simple. The material we have created as a spaceship is made of carbon (C) and hydrogen (H). It's very vulnerable to the diversity of the fields of the universe (U). What happens if we lose the containment, but we have our reactors designed and positioned in a specific way, that they will hold. Most probably the reactors themselves go through the same process, but the fields they have created, will maintain position and stability. As I said to some of the Knowledge Seekers who work with us closely with development and they are aware, we test reactors before we place them. (:22). When you look at the Enhancement Unit in Linz, we created a replication of it in the lab without the physical material of the structure.

We are endeavoring to do the same in the next few days. Which means we endeavor to create plasma fields without containment, the way earth works, the way the sun works. It'll be an adventure. If our team manages to complete, I was told yesterday, the first systems are ready to be tested in the environment laboratory without the Enhancement Units, and we measure the fields. We have equipments within our labs, which are built some 10 - 15 years ago by the Swiss scientists for us. If you remember the one we used for 129 (Tesla) measurements of the fields.

Then we enter the true space what we call, technology (T). Non-tangible physicality, but existence within the field forces of the universe. As our team are putting the last reactors and loading systems, and everything else together, in the next few days. And we start the first tests two or three weeks ahead of the Enhancement Unit testing, and we see the pitfalls, and the things we have to complete, would we achieve the ultimate goal?

The facilities we have, and we have created, allows us to create these, what we call, (:24). flight system, as you call it. In the present technology, aircraft hangars of the airports, but within the labs of the Keshe Foundation, creating the condition of the fight, without nothing, creating the condition of the pressures of the control without the boundary. What would be the ultimate outcome? When we go into testing these from next week on, to prepare to install them in the Enhancement Units coming up. Would we achieve, what we want to achieve, before even we reach the target of testing?

It's not to land on Moon - but learn new D

The process is not to land on the Moon. The process to achieve the strength of understanding of the new dimension (D). We'll test and we'll learn, but the whole idea is,

we have introduced a new method of flight. We have brought forward a new concept. We have brought the concept of the flight motion, the way it's done in the U. There are no control panels. There are no landings, there are no kitchens, and no toilets, and there are no, no, no, no many things in it.

But it might not work, it might not fly, but we bring the new concepts of flight into game, that the others try to strive to achieve. The working of it is in the dimension of the Soul of the Man (STM), and not in the dimension of physicality (P) of the man. The strength of it, (:26). comes out of the understanding of the process of what we call, "interaction of the fields."

Many defects in body of man corrected

What is important for us, is to understand the teachings, is to understand the teachings of the creation, and the created, to understand the process of what we call, elevation of the STM. We see the elevation of the Soul of Physicality (STP) of the man. We'll see in these processes, where many defects within the body of the Man, will be corrected by the wishes of the Soul and the Soul of Physicality.

We become the spaceship - with our soul

The new EU flight system, as we seen in the intro (video) of today, is a breakthrough. In so many ways, we are used to be in something, to be carried to go forward. This time, we are within the fields, that we become that containment, where we want to move it to. We are used to get into a car, or an aircraft, or a rocket to go from A to B. What about when that rocket becomes us, then the aircraft becomes us, we become the carrier of our soul. We decide the destination, we decide the possession and position.

We have entered the true flight space technology as of this week. Our team tell us some 50 reactors are ready to be tested by next few days. The flight system, the control is all done, ready to go. When we go through the testing, would we feel it, when we enter the environment. We will replicate the position and setting up some of these reactors in the labs before installing it. (:28). Because there is nothing outside, there is no control system.

We don't have a countdown. We don't have, that we're going to fly this minute. It's when the soul of the pilot matches the soul of the system, and matches with the soul of the control. And then we'll see the bright light, then we'll see the flight system.

I Have flown across the U with these systems

I've been through these systems many times. I have flown across the universe with these systems. I know it works. I am a passenger of the universe. Now, we have to teach the man.

Your concrete blocks, your stainless steel aircrafts will stand no time in the fields of the universe. You fall off into the depths of the oceans of fields of the universe, when you hit a plasma (PI) condition, that matches the structure of your material. And this pitfall goes every 100 kilometers of every meter in the space. Mankind has to learn the new method of travel without boundary, without what I call, possession of position. Where the matter state exists.

Mankind has to learn with a new space technology, which we put forward, that he travels with the dimension of the Soul of Man, and not with the physicality of the man. In next few weeks, we will see a new era in what we call, "for the man to conquer space, that space is, a space of his own soul." That within it we will find the space of the U, to travel with it. Many, many times, (:30). many, many times, I have brought this in different ways of teaching. But now, you have to face it. It's there, technologies developed and it's on the table for many of you to develop it further, to understand more knowledge of the creation, to understand more about the space travel in the dimension of the fields, and not in the dimension of matter.

In so many ways, mankind comes, and has come to new era in space travel. We do not need governments, and we do not need administrations, we do not need military forces, and we do not need what we call, astronauts to be trained for years ahead. You lived with that soul, you have trained that soul. So, you are the captain. It's you who will decide the position and dimension of the fields.

My advice has been to our, especially testing team, which are putting these together, do not enter the zone. Do not enter to see how it feels. Do not enter to see how it will interact. But allow it to be there. A butterfly flying in that zone, can fly the system, if its soul matches the soul of the system.

You remember in the teachings, how we said, when you look from a distance, you don't tell, see the frock of a king, or a president, or a farmer, or a dog. They're all shining stars. In a way, (:32). we have entered that dimension of understanding the knowledge of the creation, that in so many ways, we have to come to understand, that man without choosing, but by the grace of the Creator, has entered into the knowledge of the creation on a fast track.

And in that process, we have taught enough, and we will see the outcome. We will see the setting up of the first Enhancement Unit for flight by literally walking into it. We are not aware of it, till we enter it, and then we come to the position to be, start testing.

What strange will be for many of you, will be that these flight systems are tested in enclosed environments. In the Exhibition Center (Linz), in Arizona Center within the center. Then you say, how is it going to fly? We have no opening on the roofs. We have no opening in the ceilings of the centers.

Ask you a question, then you understand. Did your body moved out of the bed last night, when you traveled the spaces of the souls, of the fields of the U? When you had a chat

with your mother and father who died years ago. Did you need to move the body? Or you did the trip, had a chat, had a drink with mum, had a joke with dad. And maybe you attended a party with them and came back. The physicality is still on the bed. (:34).

Now you understand, the implication and application of the new space technology. Do we need to fly the system? Or will you come back and tell us, that I went there, seen that and came back? It was as I found. But now it's not a dream, it's the reality, because you can choose between the STP and the STM, where you want to be.

When you had a dream that you were in deep space, or you had a dream you were walking on the moon, did you see yourself with a space monkey suit of NASA? When you swim in your dreams, in the depths of the oceans, do you see yourself wearing, being in what I call, the monkey suits of diving suits? Your soul travels and takes the condition of the time, place, and position

The new knowledge of space T will break through, in a big way, by many of you KS. What we show, will be the beginning of much more research and development to be done. Much, much more development to come in by the world scientists and Knowledge Seekers. Both scientists will become Knowledge Seekers, and we'll see the change and development.

As I said, some of you online listening, you know who you are, when you were recommended by the NASA scientists to listen to the teaching of the Keshe Foundation, (:36). that's where the future space technology is. Where Chinese scientists already are working, and trying to develop the knowledge and the physicality of the spaceship of the Keshe Foundation, when they asked us can you give us the fuel combination, we've done the rest.

In so many ways, the new space technology has started. And in a big way, and in a small way, in different dimensions, we have seen the totality of the change. We have entered the dimension of the rules, and the rules of the engagement of the space technology. It is for us, to understand it more. It is for us to be able to expand the knowledge of the creation.

The test which will be carried out in the Keshe Foundation laboratories in the next few days and weeks, is not looking to fly, and you see the light in the sky. But maybe that light in the sky is transportation of your soul across this planet, going from here to New York, to see your brother, and you see that light moving. How many of us will come to see what we call, bright lights in the skies, where all these are the soul of someone traveling to somewhere else. How many times we have seen these, what we call, ball of lights traveling. Now, maybe for the first time, we understand we saw a soul in transportation. We saw and we have seen it, but we didn't understand it. Now we understand. (:38).

Next cycle of transportation is even higher

Now we see that the knowledge of the man has come to the point to understand the space travel in its true meaning. And then, till the next cycle of the understanding, when the man will learn another cycle of transportation and transmutation in the dimension of higher order than what we teach you today. Man is not ready for that cycle yet.

In a way, the whole of universe is not ready for that next step up. The knowledge of creation, the knowledge of the structure of the travel in the spaces of this universe, and Unicose, is literally the first step in the knowledge of the travel across the fields of the Totality of the created, at the moment.

Unicose is expanding into a bigger structure than our Creator

I brought this subject up last week in a very soft way, that if this universe is expanding, what is it expanding into? And if this Unicose is expanding, what is expanding into. Then you understand, there is more beyond, and that knowledge to expand, to cross that knowledge of the travel in the dimension of the Unicose, to the next level, will take much longer for man and the citizens of this Unicose to understand. But there is another level beyond, that contains this Unicose within.

The creation of the Unicose as we call it, to come to be the Creator, is itself contained within a larger structure, of the light, with the dimension, that when it reduces in strength, becomes the strength field of our Creator. (:40). Where there is above the creation and the created, the process of the creation. Then it goes back to the original question, the origin of M fields, that its interaction has led to what we call God, the Creator. That itself is part of a bigger process. How can you be loved, if you don't have a lover. How can you be created, if there is no Creator for you? Who created our Creator, what we call, the Creator?

Creation is never ending

Then we understand the whole process of the creation is never ending. And now, through this process of understanding, we've learn to touch the very first field of strength beyond the dimension of the matter state and tangibility of the man. Then, as I always draw, in this spiral of knowledge, in this spiral of life, we just entered a new cycle. If this is the totality of the spiral of the creation, including what we call the Unicose. With the present knowledge we give you, you might be at this level. You still need more knowledge to be able to cross our Unicose, and then to understand more knowledge, to be able to work within the totality of the creation, with itself becomes the Creator of it.

But today, we have started. This week, we have started to enter that process. (:42). To enter, to understand the basics. To enter, to understand the depths of the lack of understanding of the totality, of the understanding the process of the creation.

The interesting point will be, when you enter, the what we call, the fields of the Enhancement Unit with your physicality and your Soul. To what extend has your soul developed, that in which point you enter the position, and the cycle of the creation, and

the Unicose. You could be a peasant on the mountains of Himalaya, and with the first entry, you will reach this (close to the center), and you could be a king and you enter the system, and you not even reach the point of start.

It goes by devotion and sincerity - how much we are willing to change

It does not go by position and possession. It goes by devotion and sincerity and what I call, the "Love of Creator." Then the king will envy the peasant. Then those who reach the higher points will come back and tell us the stories, that to us will be unbelievable. But it's the truth, that we have to accept it. How much more we have to do to reach that point. How much are we devoted to confirmation and completion of this processes? (:44). Then how much you are committed to bring that change within us. And we get tested on daily basis, and on an hourly basis of every minute.

I have been tested to my limit

I've been tested to my limit in past six, eight weeks by Knowledge Seekers, and I still stand firm, understanding that the foundation and change is more important, then some peasant thinking men, who think they are in possession and control. But we have to see them, we have to understand them. We have to see what we are made of.

There are Knowledge Seekers amongst you, who are the most abusive people to the whole of the foundation work, but you worship them. It was for me to be tested to the ultimate goal to understand how much I've understood, from the human race. It was not for them, they were tested and failed miserably. But it was for them to find the position and the time. But it was good, because we saw new face, we saw what we need to correct, to elevate, for these souls to understand more. For me to understand what I've missed, in understanding of the work of this humanity.

I always said, you can always dress a monkey in the clothes of a lady, but you will never make a lady out of the monkey. You have to understand where is the position in the strength of your soul. When you enter these systems, when you exit these systems, what do you take in, and what did you bring out? You go with a wish, " I have a cancer, I don't want to have it," (:46). but you come out with a worst cancer, because you want it. The truth cannot be hidden from physicality and your body. You want to die. You see the death as a solution to your misery.

STP cannot be overwhelmed by STM - it has to understand

The Soul of Physicality cannot be overwhelmed by the Soul of Man. The Soul of Man is a provider, it's the Soul of Physicality, who has to understand. You walk into these systems with the body filled with pain and sorrow, and all sorts of problems, and you walk out, a man with none. Because to ... (interruption)

Cannot lie in the EU

We have to understand this process of change. We have to understand this process of understanding the totality. We have to understand, we cannot lie to our physical soul. It's no use going into a system with one tumor, and coming out with ten, which speeds up the end of the dimension of physicality. "I went in there to have none." But in fact that was my thoughts of what I want to explain. But in reality I want to die faster, because I want to be a passenger on the other side. I don't want to take this physical body with.

Then, understand when you go into this new flight systems, go with not lying to yourself, and wishing something else. Because when you come out, you understand your true wish, (:48). not what you wanted to show, as is your wish. I made man in an image of Myself, thy cannot lie to his physicality. How can man do?

Every physical body has a defect that can lead to cancer

I explained this to a clergy sometimes ago. Maybe now you might be able to understand. In every physical body, there is a defect, in every physical body, there is a point, that is a source of cancer, that if you let it grow, can create more problems.

Man is a cancer in process of creation

The embodiment of the Creator, which includes the man, has been a cancer in the process of the creation. Do you take the cancer out, and let it grow bigger? Or do you find a remedy for the cancer to find its space and position, that it does not become a cancer. This is what the Creator has decided about the cancer of man in the cycle of the creation, that this process of killing, this process of destruction will not expand to the rest of the Universe. And this is why the present teachings are going on, the present enlightenment going on, and not teaching. That man comes to understands, he is a cancer in the process in the embodiment of the creation and the Creator, by his ways of destruction, by his ways of ?? , by his ways of greed.

If needed the Creator can destroy this planet with a wish. (:50). But as we said, we don't destroy. We will not be gotten rid of. You have to find a solution, a permanent solution, that the cancer does not grow, and it becomes useful part of the body of the man, the way we see evolutionary cancer in the body of the man. Because the data, the information is needed, that it does not repeat in the next (cycle), and allows the evolution.

The whole purpose of these teachings is to get rid of this cancer of the body of man within the structure of the universe, by methods of killing and destruction. Containment, and now the new understanding.

You enter EU but do not move - travel with soul - like in sleep

In the coming time, in the coming weeks, when we see the Enhancement Centers (EC) setup in Arizona, in Tehran, in Austria, they're all within buildings. These are the beds you enter, and when you enter the bed, you'll fall asleep, the body stays, and within the Enhancement Centers, the souls finds the path of its freedom. You do not need to fly, you

need to understand what was your wish when you entered the flight system. The true wish, and not I'm going in there to see, or I have to be in New York with my lover. You end up in New York with your lover, (:52). and they say, the guy's disappeared.

But what happened? The physicality is here, but the Soul in the D of P, is in New York. You cannot lie in these systems. You have to find in these systems are set to the minimum truth threshold, which means you cannot lie. You walk in and nothing happens. You say, "oh it doesn't happen, it's just there." Because you lied to yourself when you entered.

EU were tested and they work

When we tested one of these systems, for the very first time a few months ago, we saw the change in the evolution of the Soul and Physicality, within microseconds. Our Knowledge Seekers who went with it, are amongst you and listening. The system went to find the peace, the what we call, balance between the STM and the STP, which is controlled within the heart, and it tunes again, and it tunes again, and tunes again. If it does not find a balance, it stops. But if it tunes and finds the position of the balance where the Soul of Physicality, and the Soul of the Man, are in line of the truth with themselves, and ?? work, man will be remedied from the travels of the U. ?? enter the D of seeing what we entered to see, and it was the true wish.

I watched when the Knowledge Seekers went through this process. I stood outside and I watched the physicality and the Soul. You are the Knowledge Seekers amongst you, who've been through it. (:54). You feel the forces of the creation before you enter the environment of the system. We are not just going for a flight system, that it will be there. We have simply, in a very simple way, have tested the systems.

I hope many of you will find pleasure when you enter the dimensions of the fields of the new space travel. Where you shall never lose your spacecraft, where your spacecraft will not dissolve and evolve in different field strengths, where you are the star, where you are the soul of the travel.

It's you who decides today when I go to sleep, I want to land to see my grandpa today, and then tomorrow I want to go for a dinner with a cousin in another point and destination. In a way, you go to a travel agent and you buy a destination ticket. In a way, when you go to sleep, you have never understood, that you can destine your travel before you sleep, I am going to sleep to see grandpa to have a dinner and come back.

Enjoy the steak without killing animal - cannot die of hunger

Now we give you that opportunity, we give you that sense, that you learn, that you do not need to, in a way, I am going to a restaurant to have a nice steak. But you can have an image of the steak, but no animal shall be killed. You get the feeling of what you want, but no one will be touched. And gradually, even you don't feel the desire to have that

steak. But you have, you will, and you go. (:56). This way, no man shall die hungry, no man shall sleep hungry.

Today, 15% plus of the children in United State of America go to sleep hungry, according to the statistics of the United Nations, and 3 to 5% in Africa, children go to sleep hungry? Would we teach these to the American children, that their numbers dwindle to the number of the Africans. Then they can dream to go to the most beautiful restaurant, or to have what they wish, and they receive it, they receive the energy, they receive the nourishment, they receive the elevation of the soul, but no one shall be killed. Not the grain which made the bun, and no bird, which animal had to be killed.

In reality, thanks to many Knowledge Seekers, and many Knowledge Seekers who are working in background, to bring this technology forth. We'll bring the change for you. The change is not to come, the change is here, it's for you to come to see. It's for you to come to understand, it's for you to come to extend the knowledge. As you call it, this is an "open patent", patent of the creation, patent of the Creator, patent of the knowledge of the creation to live, and to be part of the living souls of this planet and beyond.

Maybe in the next few days, maybe by next teaching, maybe by 6th of June, you will see the show. (:58). Many of you will not feel a thing, but many of you will come to see the dream you dreamt. They call it the American dream. They call it the dream of the creation. The dream which comes through instantaneously. If you are correct with your conduct, conduct of the wish of the soul, and the Soul of Physicality of the man.

If you come out with more tumors - you lied to yourself

Don't go in the system and say, I went with 1 tumor and I came out with 10. Because you lied, you want to see the end of this physicality, it's going through too much torture, "I don't want to be." And some of you of with 10 tumors and come out (with none), because your purpose was to enjoy the life, and not tumors, which accidentally came on your path. You were there to serve, to serve your Soul, to serve the soul of the others, and then you find the elevation in the Totality.

Put satellites around planet - no more killing

Then in the near future, we create the condition of the satellites, as you call it, like moons, that surround this planet and keep that continuous field, that all souls within this dimension will be satisfied to be nourished, in all dimensions that no lion shall king, and neither no man shall be king.

These are not dreams, the systems are present, produced, and sits in the beautiful city of Linz in Austria. Even if you open it, you will not understand it. We have hidden the knowledge of universe within the systems, and no man will be able to replicate it, (1:00). without the knowledge given truly by the way it has to be, and the it is. Even those who produce it will not understand.

It carries my soul - cannot be copied

As I said, once the units are released by the Keshe Foundation, they carry my soul, without it, you have no soul to fly. So, no one can copy, does not matter how well you try.

Brazilian comes to steal T - Med Beds do not work

We had an interesting meeting this week by the people who came from South America wanting to discuss about the what we call, opening Institute for Keshe Foundation in Brazil. We found out by their own talk, and what we understood, they were from the people who are involved in "Med Beds." They came to see if they can steal technology under the cover of, "wanting to help." (They wanted) to see why their system does not work through it, and they are involved in it, what we call scientific tests, what we call industrial tests.

Our knowledge does not need to be stolen from, it's given freely. You have to understand it. So, if the Med Beds really worked, they would not be there to steal more, because they know they don't work.

Have to be correct in the conduct of use and application

We understand the knowledge belongs to you as Knowledge Seekers. But you have to understand and you have to be correct in the conduct of the use and the conduct of the application.

In the coming weeks, with more and more, we'll concentrate on the flight system, for you to understand, (1:02). but you have to understand what is about to come, what is about to reach you in the process of understanding, by entering these new systems.

Many souls travel the span of the universe and those who fail to understand the process, travel with a spaceship. Those who come from the U, who bring the spaceship. Those who come from Earth understand the dimension of travel, in the D of the Creator. Then you'll see those who sit in the spaceships, envy those who come from earth, that they understood the true meaning of travel, and not a game contained, on the back of a donkey, to a car, to a spaceship.

We have given you the freedom of your soul. We have given you the freedom of the universe.

There shall be no cows, .. chickens, on Mars, Moon, and beyond in the galaxies. How are you going to feed yourself? So now you understand, you have to go through the process which is set. for us to teach you, to understand the elevation of the STM, that it absorbs the energy from a higher order to feed the dimension of the Soul of Physicality, that when it wants to manifest itself in the matter state, or visual, visible condition, it can reduce its strength to dimension of the space, time, and position. (1:04).

Then you'll be human in the body of the man to me, a man from Mars to another being. And to be able to be seen in another dimension from a distance, to the citizens of another position and time.

Fortunately, I had the pleasure to witness this in the past few days. How a number of people look at one, and have totally, different perception of what they have seen of the same. As you say, it was a hair raising experience. But each one was taking a knowledge according to their understanding, from the soul. I understood, and it was easy to be understood, by those who were present.

In a way mankind has entered, to understand the process of life of Mitra. The cycle of the children of Mitra will go through this process, and with it they shall not kill, they shall not destroy another life. And they will pass this information, and the knowledge to the new children of the man, what we call, the children of Mitra.

Then we'll see the new cycle to begin. We'll still fight, we'll still struggle, we'll still hassle, we'll still produce for the knowledge to be shared with the governments, and with the others, because they have to change with it, not us to do magic's. But them by magic, to become and then change. We'll strip the body from the true intention, (1:06). just by true processes of the elevation of the Soul. The physicality, whose pitfalls, which I hope many of you today understand what is about to come.

I hope many of you will understand the process of what has come for you to understand what is to be. For you to be ready for the spaceflights as the what I call, primitive systems have already been developed and ?? and it's about to be tested, not to fly across this planet. But to allow you to decide where you want to fly, beyond this planet.

Many of you if you understand the process will bring new knowledge. And my advice to all of you is, when you get someone who's been through the process, and tells you what they have experienced, respect it. Because ridiculing, it shows your lack of understanding the process. Not that they don't speak the truth.

Always remember, how many times I have said, about the guy who went to Moscow and he says, they have a bird, which is made of iron and steel, and it flies. Months later it appeared in Tehran. Later it was understood, that they were not educated, not the man ?? who told them.

We have to understand what comes with the new knowledge, embrace it, record it, and then find out, research it, that it happened. Can we replicate it? What was the reason for this experience? What was and how it was created. (1:08).

When you see your mother who died 20 years ago, and she says, she has a pain in her stomach, or she has a pain in the arm. Is this the physical pain of her, or she is telling you, that you have a problem in your kidney or your arm, or somebody has. And she knows. She's the reflection in the mirror of the pain, because she has no physical dimension to suffer pain.

Then we understand to interpret it. We understand how to interpret. We understand how the interpretation has to have a meaning by ourselves, not to be explained by the others. This is not a dream, that you need a dream explainer, to explain to us what the dream means. We have to understand the process, we have to understand the elevation, that has brought us to this knowledge. What can we do with it. What is the process of this knowledge. What needs to be understood to go to another level.

My advice to you Knowledge Seekers is very simple. Understand the motion of the travel. We'll still make the MaGrav systems, we'll still go for the generators, we'll still deliver whatever, but we have to keep busy. We have to find a way, that the life of the physical life is fulfilled. It's you have to find out how you want to fulfill the time of life, which will not be the 60 years, or 100 years, or 1000 years. It'll be the time of the life of the U and the Unicose. Which factories are going to work in? Which bread are you going to eat, in another U, (1:10). where there is no bread.

Man has to learn the new dimension of existence. In a way, in the computer world, we call it a sandbox. We give you a sandbox to test, before you start using a program. Now, we give you the sandbox of the enhancement flight unit to test your skill. And see if you are physicality, in Linz, and your uncle in Beijing is having dinner with you, and calls your mother, and says, he is with me having a dinner. But in fact, it's you who decides the point and the place of the manifestation.

We are not in a dreamland, we are not talking about what could be done. It is done. The technology, the system for delivering it, is built, is available, and with it will come the extension of the knowledge of the man.

It'll be interesting how much you Knowledge Seekers will come to comprehend the totality, and how much you as Knowledge Seekers will come to understand the physicality. I'm sure our team's ready to take you on the flight of fancy, in the dimension of the realms of the STM.

Don't leave physicality behind in the EU - elevate it

And please, wherever you go, come back, because we don't want to move a body out of the system, till you decide to come back. Come back and take this physicality with you, or come back and move it out, but bring the knowledge to elevate it, and don't leave it behind. (1:12). Our systems are not mortuaries. And our systems are not the beds for you tourists, to wake up when you want.

I hope you understood the intro (video) of today, and you understood the knowledge which followed the intro. In the intro we taught, and we showed you the way man has tried to fly for centuries. And with the teachings, we have shown you another dimension, further, much, much, much higher level, then what you've seen in the intro. That's the knowledge of the man, and this is the knowledge of the creation. You have to decide in which level you want to fly.

Become passengers of the universe, detached from physicality, or please book me a ticket on the spaceship I want to go to moon on the 6th. We're traveling the souls in the dimension of the space travel in the true laboratories on the sixth of June. Your spaceship locked, chained to the floor.

If you went to Linz in the design center, when we showed the first two Enhancement Units, and if you go to Linz and look underneath of the flight systems, or what we call, the two enhancement systems, you will see pieces of wood in the corners extended, or extension to the floor. Those who are here they can tell you, that for systems not to fly, we had to screw and add weight underneath the systems, (1:14). that they do not take off. We had to remove them (the weights), when we move them out. Now they are so heavy that we don't even bother with it.

But understand with the new system we don't need to shackle you down. The only thing to shackle you, not to go through the space travels with the new flight system is you, and the correctness of the conduct of you to your soul. As the beautiful Arabic word says, "we have taught you everything," it's the final for you, at your level of understanding. As they say This is what we have given you as a gift, ?? as a better cap ?? as the giving. It's for you to understand what " ??? better cap" ?? you have received as a knowledge, or the greed of the man in the dimension of physicality.

The Totality is given, it's for man to decipher the knowledge page by page. As I said, you read the three books when he became the first Knowledge Seekers, you read the book 3 - 4 years later, and it has totally different meaning then when you read the first time, because you have more knowledge. And now, read the first, second, and third book, and you see the knowledge of the travel of the universe has been hidden within the writing, and nothing is new.

As we wrote in the word of the Creator, in the three books, in the knowledge of the science, (1:16). and not in the theology of lies. You can test it, and maybe with it, you can prove the lies in the theology of the churches, mosques, and temples ?? ?? . Because now we can see it. If you are, and understand truly, you can have the Last Supper with Christ, because the wish is there, and it's there to satisfy the wish of truth, not mine, and not yours.

Thank you very much for today's knowledge sharing and I hope you understand, that juggernaut has hit you all. How you're going to recover with it, and from it, depends on the level of your understanding of the knowledge of the creation. Thank you very much. We'll go to a break and come back and answer some matter state level of understanding.

We go for a break (1:18).

Proofed to here >>

>> **BREAK** <<< 432 KSW May 12, 2022 (1:24).

K- We have 7 transcribers / translators ...

R; ... (1:26).

K- Can you bring the head of the KF up , she is using a different ID numbers ... Can you bring them in ...

They want to stay in incognito. (1:28).

Q: .. When is it possible to go into an EU, and is it for free?

K- It's not for free, that's for sure. People have paid huge amount of funds to purchase these units in the centers, and people have paid 10 million to buy the flight system (FS). People pay a lot for different units of the KF, and it belongs to them. KF in collaboration with Knowledge Seekers is setting up these systems. Now that we have gone into mass production, All the Enhancement Unit, which has been sold previously, will be .. for order to be delivered in the coming time.

Now we have established a continuous production line. So it's just, that we have a what we call, unless we go for a massive expansion, there is a limit into how many units per week or per day, we can produce. At the moment we are trying to reach one a day and then increase it to about 30 a day, to meet the 1000 units, This will not happen till the end of this year, because it's a lot of work, a lot of work involved in the background in setting up these. (1:30). The physical structure, is not that hard. It's mainly trying, the controls, the understanding, the loading, and then tuning it, and the rest of it takes time.

Here >>

R: I see in the Keshe Foundation store they offered the flight enhancement experience says starting in September 2022, you will be able to enjoy the flight experience in the new flight enhancement spaceship units within and outside or sort of orbit using the new space plasma technology book your ticket now, and that is well 250,000 euros. So, you have to be prepared to pay something quite dear in order to have that first. Experiences Yes,

MT Keshe 1:30:55

there is something which has slowly eroded up into the shop. Last week, we announced that workshops in the Keshe Foundation exhibition center for the production of the what we call GANS is perfect answers by people who actually work within the Keshe Foundation, manufacturing side, these are not teachers alongside her, which is part of the Keshe Foundation has been responsible for gas production for years and definition. So, the class is done by Herbert in the 11th of June. These are deep embedded knowledge, which we'll learn and you can do it missing, some people have made a booking. Now, we have entered the pottery this week, you can join the people who actually make if you

bought the Cup of Life where you pour the sugar or the pressure, you have the master teaching you on the following week. I think that's an 18th. It's already posted on the Keshe Foundation website, you can book there is a very, very limited number of people for this workshop, maximum 10. And when you made your cup, so your pots, you leave it and you'll be fired and done by the experts and then it'll be posted to you. And you'll be taught how to do that mixing up the gases is a procedure to it is not just mix and play. And then you will see there is one coming up for a sculpture to make sculptures which you can put as ornaments in the house with different dances. And what the effects will have this will know one of the masters one of the leaders I admire most in the Keshe Foundation. She's been solid back on our work in dense, she's a sculptor, she will teach you how to make it how to do it. A lot of work you see in the Keshe Foundation appears done all you get things is this lady behind it. Take up all hard workbooks us studying about the rock behind our work in events. We literally she's the mother of the foundation in the men's she does everything to keep everybody happy. And that will be the following week after that. And then we'll have the painting. The painter who will use against us for that will be booked for the following week that but this week, we added the pottery, and I'm sure during the next week, you will see the sculpture and the painting. And then we have our own Knowledge Seekers we introduce new what we call dimension into what we call sub ornaments, right? That you can keep at home, you have a pain, you cuddle a teddy bear Teddy is made by the Keshe Foundation, the Knowledge Seekers who have made especially mixtures by the Keshe Foundation to innovate to help you feel sad, you cuddle a Teddy, you cuddle a rabbit. And within it, we have hidden knowledge. We're trying to be knowledge to be reachable and understood by as many people as possible. And we have commissioned the first 100 of these for the call soft ornaments to you will see them in the next few weeks, the sharp edge and the massive bow to teach you how to do it. And we try to expand the knowledge and for sure in the next few months. We will do a weekend of the space travel teacher or before a world leading scientist and put a fee for the mat to this training. They're working on it in the background when they reach to it once a week. And around about 10 to \$20,000. For the lead scientists around the world who want to join, it is not fixed yet, but sometimes we'll announce it when they decide to go ahead with it and completed, the place will be just for about 10 to 15 scientists. And in those two days, few and a lot of other hot topics there, what we call Space Technology, newest technology. And I hope this will take place in town. And the process is very simple, that we teach you how to fill space systems. And some of you who attend that course will be requested to join the Keshe Foundation as a full time member of the production line and asbestos.

HERE >>>

Any other question .. (1:36).

Q: Azar ... These few things, I don't know, because these days? .. sometimes I feel like I don't know anything. But maybe these are part of my gibberish mind is telling me something. Or sometimes I think when you see things about human behavior, you wonder. ... You don't know the answer. ... Maybe you don't know the answer. Maybe

you can help. Maybe you think I don't know the knowledge, because a lot of times I think, I think to myself, "God, I don't know anything. I really don't know anything."

So you see when we when we look at things. When I look at how God created us, sometimes I think, was it a mistake? And then realize, maybe it wasn't a mistake. Because if I came to this world and just always was just good, I had no training, no hate, none of that, probably I would understand love. So it wasn't a mistake, that I was created. Because we had to understand, if we didn't know hate, or anger, or any of these I wouldn't appreciate love.

K- Why do we need to know that side, to know the other side? Doesn't make sense?

Q: But if it wasn't originated first, how would we understand it. If it was everything for love. ? ... So was it a mistake then? (1:38).

K- Is it a mistake, or is it an experience we have to learn from? When you fall in love, do you look at what is wrong with the person you fell in love with, or the entity, or whatever? Or you just look at the positive way and you build it. When it comes that you don't receive what you expect, you change it to hate, because you create expectation.

Q: So the reason, where I'm going with this is, because I feel now with all the things. For example, I enjoy sitting by a lake, I enjoy sitting under the tree, I enjoy looking at the flower, I enjoy to be with the lover, so I learned all that. I enjoy physicality. Now I think, the way I feel, I feel now since we learned this. So it means that, this physicality at one point is has to end, and what we take from here, in any part of the universe, is what you're teaching us, I can create the lake, I can create the house, or the gold if I want to. If I can create ..

K- Can I ask you a question? How do you think you came to this point?

Q: You mean like now?

K- Yes, to understand you enjoy a lake.

Q: Because I experienced it.

K- So now you understand when I tell you we come here to experience, that we know how, what experiences ?? exist, that we can do things to stop it, or prevent it, or enhance it.

Q: So that's what I'm talking about. So my feeling is in the future this planet is going to go, because there's not going to be any physicality, but what we take from here ..

K- Who said (this planet is going to go). It cannot go, ... it's part of the operation.

Q: I can go to another universe and create the same thing I have here, with what you showed us.

K- So for you it's not the ?? point. (1:40). It doesn't end, just because you learned something. It might be a new beginning for you. But this journey has to be taken by many people.

Q: Okay, so the people who learn, they leave and ...

K- You don't need to leave, you experienced it. When you taste your lover, when you taste the loving process with your partner, (do) you just get up and go, "oh, I learned that's it, next one. You stay there, there is more in it.

Q: But why the teaching, ?? what you learn. Why is it we cannot transfer it, or give it to somebody else?

K- We do, we do

Why do bad things happen to good people - unexpected - unasked for

Q: ... let me tell you a story. Because I feel, because I went through so much tumultuous emotion yesterday, because a patient come in, because I can't wrap my head around these things. It was an African American father, and his son was coming to me once a month. And he hasn't been to me for a while for a long time I asked his father about his well being. And he said, he's 22 years old, he wanted to take his girlfriend to her house, on his way back, he wanted to get a haircut. So he made a shortcut, goes through the park from the underpass, 4 people, African American attacked him, beat him up so much. They didn't take his phone, they didn't take his money, they didn't take his watch. They just beat him up, that he was in hospital for two weeks. And he is at home and constantly he has seizures.

So I'm thinking to myself 4 humans, they weren't hungry, they didn't need anything to steal, but why that behavior? Why such a behavior exists? Why?

K- The thing is, the thing is. (1:42). We do not prepare ourselves for these things. We do not understand the reason. What you tell me, is just a déjà vu, because this happened to me and my family. One of my sons is a martial art, black belt. And he is very humble man. He walks the street like anybody else. A few years ago, he said Papa, do you know what happened today? I said, what happened? He said, I was going to go, to catch a train. And 4 black guys, Pakistanis and black guys came to me, and they wanted my leather jacket, and they pulled a knife out. Being a very humble boy, he said I don't know what happened. But there were 4 bodies on the floor, and knife in my hand. And I said what happened to you. He says, there's a scratch somewhere on my arm, on my leather jacket. I said, are you okay. he said, Papa, I'm trained. I don't need to show when I walk it, but I had for literally, dead bodies on the floor, within seconds.

We are not trained for it, but we have to be prepared for it. He would have been that boy, maybe dead, or maybe not ?? there were 4 knives. I had the same experience a years ago with Bill Crammond lord Bill Cramlin. His son was about 18 - 19, and he has a black belt Judo. We went out and a couple of people came to attack him, they were on the floor, and he was standing there. I said that's a good investment, I let him play Judo and the rest of it. (1:44).

We are not prepared for it. If we are prepared for it, would he, could he go into the dimension of the Soul, that his physicality wasn't there to be abused? Is it to learn something from it? Is it for you knowing, with the knowledge you have, you can something to do, that it might bring knowledge to you, and change your future by ?? it. Seizures can be reversed, we done many of it over years. It does not matter how it comes.

It's us that, it's not why it happens, It's are we prepared for it? Are we, or are we prepared to have a judo training, or martial art training to defend ourselves? Or have we trained ourselves to go to the level of the Soul that the body is ?? not there for them to attack?

Q: .. But why is it that I don't go and do these things, and jump on someone, and beat up someone?

K- We are not brought up (that way). You do something else, you go and attack them in their mouth with your drill. And you think you're doing a good job, because you're a dentist. You are still attacking them, because you're trained, you can justify it. You put them through pain, you give them the injection. Can't they use thing, can't you teach them that, they never have any tooth decay, and they can sort it out themselves?

It's, we don't do things. I was in a diplomatic meeting very recently, and I said to the (1:46). what do you call it, attaché. I said you know something, you know what I'm talking about Azar, because you're aware of what's happening in the background. I said, do you know something, my biggest enemy is the ambassador, you tell your ambassador, if he stopped becoming the enemy, we can do something positive. He said, Mr. Keshe. I said, I'm very open. You speak to your ambassador, once we sort out your ambassador. They tell me, Ambassador, I guess I don't need enemies, then we can ?? support, but we are still here to do something for you. And he had no answer to it.

We have to be, we got to be, I don't consider why I don't do it. Because we are not (in that) mindset, we are not there to destroy to get something out of it. We are (of the) mindset to help, to do. But I don't know, no one Azar, and I've been involved with you dentists for years. Over 50 years I've been involved with you, 40 years, with you dentists. You see yourselves as an angels. But I don't know no one, that can put a man through more pain than anybody, than the dentists when you attack us in our mouth. But you justify it, I'm there to help you. I know no other profession, that puts man through the pain.

Q: ... The other way is to people, people, people come to me with pain I get them out of pain.

K- Yeah, but you given them more pain.

Even if there is no pain, you say there is a hole somewhere. .. drill it.
no pain, you said

Q: The girl comes crying and I stopped her crying, because I just ...

K But not all your patients come in with cry they come there.

Q: .. that's not true. Llet me tell you something. (1:48). I have I have kids come to me. And every single kids that comes to me after they see me, they come every time with a smile. And they jump on the chair. Because I spent because I can tell you this one experience this is the boy is now 24. And he works. Now he went to college. He came to me when the mother brought him his key was crying sitting on my chair, this little boy, he was like six, seven years old. And then I spent one hour just talking to him without doing anything. And after that, because I had to do extraction on him because his baby tooth had cavity on it and it was too bad. I did the extraction. He he finished and he was

smiling after that every time he came. Right after that he would come with the biggest smile posted on the chest is still as a 24 year old. He never missed any appointments. When he comes he's my best friend. And you'll never miss it because because he knows if he goes and do the cleaning, he doesn't need to see me. So I mean, it's actually one of the things I always tell my patient I said, one of the major thing that we missing in our education in our educational system universities is all about how you can make money is is not about teaching people how to take care of your body. So when when people come in if you just put shove your hand in the mouth, you're talking to them. So what do you do you have this scary vision of the dentist but when a kids come to you when you speak to the mutation, you don't have to do anything with them anymore didn't then they just come into the clinic. They never have any cavities. They're going to be fine.

K - Yeah, but what I am trying to. You talk about the pain, we don't, we are not trained, or we are not there to get others ?? suffering. But in general, in speaking, we are not trained to do certain things. We are not trained, and some of us react to that kind of things. (1:50). The reality is, some of us, we don't know when it happens, how we will react. We don't even remember how we reacted. It's a sequence of things, which we go through, and it's automatic reaction. The reality is how we perceive our action, is to be done, or has had the effect of. We don't go out to harm. We don't go out to destroy. We sit, we do what we need to do, to see the progressive development. But why other people go to harm? We don't know. They have their own reasons. They have their own mindset.

I always said, I don't understand, we live in Austria. Now we see a lot of Ukrainian cars coming through, some brake on the side roads. They don't know where they are, they're just driving to be away from where they are, where they were. Some of them are there to get better.

And I've asked myself this question a few times. We know the reason, we know the background behind it. But did the Putin, or the Russian leadership, and the Vatican and the Russian church. He could not work out this in a peaceful manner. And he had to get to this point. Or is there something as a human race we have to learn at the final stages of this killing process for the religion.

If you look, Vatican did the same thing in Northern Ireland, (1:52). they fought for 300 years, they wanted it, because the access to that, was the proof overtaking, the taking over the monarchy, of the British Monarchy, since then, and they, Church of England, now they have. This is not a skirmishes up a few ?? But why did they have to get to the point of a war? Why couldn't it be discussed in Vatican and the Church in ... what we call it, in Moscow, or in St. Petersburg.

Where we have forgotten the language of peace. Would one of you enter the space flight system, and you're so true to your wish in the soul, that you want to elevate. It's not something that you have is fashionable. But truly within your own soul, you wish the elevation of the soul of the world leaders, and they'll all will be elevated by your soul, and you'll start seeing the change in the coming years. Or the change I wish, but was that

wish, was that soul elevation truly came within, that it, what do you call it, reached the point.

You know if you were in England, and you know about the beer game, it's called Heineken. There used to be an advertising called Heineken, which is the part that no other beer can reach. Would your soul, so sincere, that can reach maybe 1, maybe 10, maybe half of the world leaders, that they walk away from the war. Because you were sincere, you brought their souls to your level. That's what we do when you go in the EU, your energy is lower, (1:54). and the system is higher, it gives for it to elevate it, that you don't have the cancer. Are ?? the souls, (like) the cancer cells, that need the, to receive, to elevate with it, and it was given with sincerity. Because it was done in such a way, that it fulfilled, it brought, next day there is no war. Next day there is something positive.

Maybe 100 of you go into the system, and 10 of you have that sincere wish. And each one of you according to the strength of you have, you can reach 1, or 2, or 10 of the world leaders. Collectively you reach a 100 of them, you reach maybe 50 of them. This is the beauty of the New World. This is the beauty of the new science.

About Neutron Decay ..

Q: .. Yesterday in Farsi teaching regarding your last week's teaching, when you look at the, we talked about the Creator, and we talked about the decay, we have a neutron and we get a proton and an electron, because I think the discussion we had, and then the different point of view, I think comes from the maybe, we look at things in a matter state, not plasma state, because they were saying okay, you have the neutron and then proton, and electron. The electron is the soul and a proton is the physicality, and then they say no, not neutron is the soul.

K- You decide which one.

Q: Then I really got confused. I said, maybe we should, I should ask you the question. So, maybe you can explain.

K- You see, one stands the representation of that. Without the electron, (1:56). proton cannot manifest itself, and without the proton, electron cannot manifest itself. It's the interaction of the two, which leads to manifestation of both. What as a nuclear physicist, the first thing we were taught is, "it's there." In reality, you cannot see the proton, in a way, in those days we had these machines, we could see a fuzzy light moving fast, and they said this is the electron.

Q: .. Dr. Baripur ?? was saying what about the hydrogen, we look at the hydrogen and it's not decaying. So what is it ?

K- H decays, who says it doesn't. Hydrogen decays more than anything else. Why is it a source of energy? If you look in the amino acid (AA), we always said energy comes released by the interaction with it, You cannot do if it wasn't. It irritates, it agitates, it forces, according to its position in respect to nitrogen to release energy, and part of it, it absorbs itself.

This is the lack of understanding the world of the nuclear scientists, or nuclear physics, or in biology, when you have a proton, electron. Oh sorry, oxygen, carbon, hydrogen and nitrogen in this position (draws the atoms arranged in specific position), you get a specific field release, which is good for the cell of the brain. If I put oxygen here and put the carbon here sorry oxygen here and put carbon hydrogen and nitrogen here, you get a different field release. (1:58). And this is good for a cell of your heart.

We haven't understood the totality, a three dimensional active plasma life. It's not that this is an isotope of oxygen, the positioning interaction, now it has to interact with three different ways. Now, the oxygen has a different position in interaction.

Cells plasmas are recycled around the body and then rejected

It's the same we are so, we think in singularity, that we cannot see three dimensional. When a body finishes for the energy of this structure, for the brain, it doesn't destroy it, because of its new orientation, and ?/ things, now, this is good for the cell of the kidney, and when it finishes releasing energies for the kidney, it's good for the cell of the leg. Once our upper body generates, creates a thing, it just doesn't get rid of it because one cycle is finished, it uses it to its maximum, and then it will reject it, if it cannot use it.

This is what the world of science, world of biology, and medicine have not understood. When you have a cell, which every 28 days, or every 500 days, or whatever, goes and gets rejected, it doesn't go as part of your, (2:00). what do you call it, excrement, as part of human ?? . It goes, it can be used for everything possible, then it's reject.

And sometimes these transportation, leads to ?? transportation of cancer cells, because they pick up the code of energy fields. We've seen this in women, when you go through your monthly menstruation, you prepare the body for new birth, the body collects all vitamins, everything else, even calcium from the hip of the mother. Because that's already made elements, totally converted (to Gans). And it brings it ready for the cycle to create a new life, new information and dimension. Because every cell has a calcium within it. The child is not born, the body just doesn't reject everything, it puts it back, store it, as the mother is going to feed the child. That calcium goes to the breast. But it stores it, it doesn't waste it.

If you understand this, a lot of illnesses can be stopped. Because we transport it. We don't understand the cycle of the step down, or a step up of the energy of the cells.

This is the progress, it's the development of the understanding of the knowledge. Then, in this process, which one is the soul of the system? Or does the soul of the system, in this amino acid it's here this time? But it is here next time.

We have to open up the level of, not understanding, (2:02). but realizing the truth. We see it, this is why in the last teaching I talked about bringing these cells into the vacuum, and see how in 3 dimension they look. The knowledge, the science and the technology, has to

be understood in all its facets and dimensions. And not just because we understand one part of it, and think we understand all of it.

Q: Mr. Keshe the last thing if you permit you've been to cinema. And you go ..

K- No I don't know what it is, a cinema, never been there. I call it sleeping chair. When I go to cinema, the first five minutes I am awake, and I wake up the last 2 minutes ?? when I heard the movie is finished.

Q: Maybe Mr. Keshe you're not the only one I'm like that too. So no worries. But you've been to cinema, so when you sit in the chair you see biggest screen in front of you, and there's nothing there. And then suddenly when the projector in the back starts, you see the hero, the villain, the lover, and you see all those actions. You see a kiss, you get affection by it, you feel good, suddenly somebody is screaming and you jump.

Because the screen shows you that. But when you get up and stand, and you look into the light, and all these come from that light. It doesn't exist. So the Creator Himself is that light, that when the light of it shines on Earth, on a condition of earth, this screen is showing. But actually if I go up to the light, I don't have to see what is on the screen. I can change it. Is this right?

K- What about the projector, (2:04). and what about the film in the projector?

Q: But I become the light.

K- No you become the ?? ?? blocker of the light, because the screen will be black

Q: But, but if but they created but they create but okay, so if

K- Have you ever been to the cinema, especially when you sit in a back row, when you're young, and you try you can reach the projector light? We used to do that in Tehran. And then you move your two fingers, and then on the screen appears a like a bird flying. So you haven't changed the light, you just appeared in the light.

Q: Okay, so if you go there, so we go to the Creator. So I can go to the light of the Creator, but then you said, the Creator was created by the other fields. So the other fields are the projector?

K- Yeah. So?

Q: So now I have to go further than the light, to the projector then?

K- Yeah

Q: Then I can do?

K- Maybe, now you have to do the whole movie, before we can change anything.

Q: Not change it in a way, that I change it for everybody else. But my perception of what I see is going to change?

K- Maybe.

R; maybe you'd have to get to know that projector operator

K- I think Rick is talking about himself, you had better talk, that he can put it right. But in a way, we are, .. we cannot change the course, in so many ways, if the course is set. The

movie will carry on. You think you blocked it, the movie will be played the next session, it will be the same without you interfering in it.

Q: So what you are saying is, I have to go through it, what I say and finish it.

K- .. That's why you went to the movie, to see what other people's have made, that you can watch.

Beauty of South China

There's a beautiful thing, WL can explain to you. (2:06). You've seen the movie Avatar. This thing, this valleys, and mountains on hills, actually exist. That is a beautiful place in South China. We had the pleasure to be taken there and to see it, and it's one of the most wonderful places in the world. The beauty of it, and the extent of it is breathtaking. And when you see the movie, they add characters into it. In essence does not exist in that dimension. They made it to look, and they created the perception, that in these beautiful mountains in China, such a thing exists.

It's one of the most beautiful places on this planet. And this is the reality of those things which you see in the movie? Or is it something that we accept what's in the background as reality and the rest is production made for us to believe in? And apparently our tattoo is coming up and up this year called the water and what is the extent of reality and made to believe and how much we can change that makes belief but the reality states demands a small change the trees for me they're

The most beautiful valleys in the universe are within that mountain range. It's an experience, if you get a chance to go to China, and go and see once they open up. It is beyond belief, how reality is ?? (2:08). Because I watched the movie, and going to see the environment, It's just you expect the people you've seen the movie to pop out somewhere, but they are not there. Because it's imagination we made. We fit it onto a reality which is there. We cannot change.

The Creator is the reality, our life is that imagination we built on it, and we want to fit into that it becomes one. It's us who has to understand it. If you get a chance to go to China, go and see this area, ???

The reality is, if the Creator is there, we would like to create an image on his, what we call, canvas. The ??? ??? will change.

Any other question?

HERE >>

Q: Dr. Farzam Bararpour starts speaking in Farsi ...

K- Let me explain, Dr. Barapor one of the heads of the Keshe Foundation in Iran is online. He doesn't speak English so good, so I try to translate. Or Azar you'd better do it (2:10). because you're both medicals, you understand much better than I do.

Q: ou can do that over Westin.

Dr. Farzam Bararpour 2:10:09

Man ramshaw Who has Roger Dawson D sharp, so that gives you the essence of as a de que Naboo can begin decay me share your decay name jgc Moataz one atom grafting nematodes in tune of aging. So what should get Rue that banana and some other Tama rathmore The level la Coronavirus John

Q: .. Dr. Barapur was saying last night's discussion wasn't about the decay, we were talking about the soul in everything, like in everything that exists.

... we talked about the proton to be the soul, and ?? (electron to be the P, and the neutron be the soul of the Creator. Electron to be the soul of the Creator. (2:12). But in the past we were saying the neutron was the Creator, or the soul. (Confused to translate ...)

Okay in the past was saying proton was the soul of the Creator, and electron was a physicality. Now are we saying the other way around

So take in one hydrogen, the hydrogen that is not doing anything in a decay, but the essence of it, the proton in it? Is it the soul or is a physicality?

K- It depends on what scale you're talking about what you're talking about, in what you call it, in position and D. When we teach, please listen to the whole discussion, (2:14). and not to one part. In a way, if you look at it, the soul of the Creator is within the proton. But without, and on the another hand, the Soul of the Man is within the electron. But at the position when the Soul of the Man itself, becomes the center, in respect to the soul of the Creator, which you call it, a proton. Because it came from it. It's the same part.

You have to understand in what space, time, and position, and what we are talking about. And not just because we said, the proton is the soul of the Creator, and electron is the STM, or the soul of the Creator is the electron and the proton is the Soul of Man.

In understanding in what context we're talking about. This is what is important. Go back to the teaching, why we said this is this. And in the next teaching in respect to the Soul of the Man, we see the Soul of Man as a proton and Soul of Physicality as a electron, and the interaction of the two creates that atom, doesn't matter hydrogen or whatever. Or is the soul of the Creator, is so intense, and so interactive, that the Soul of Man is literally, if you look at the dimension of the proton, as being not moveable, hardly moves, if you look at it, if you look at it in respect to the electron. Is that electron, is the soul of the

Creator, and the man which is literally nothing compared to the action and the dimension of the ... soul of the Creator. (2:16).

We have to understand in what dimension we talk about, and what we're talking about. Because when was the Soul of Man is the proton, it means is within the fields of the Creator, which is active at a much higher strength than the proton. Do you want to translate, or are you lost.

(2:18).

K- Sorry about this, I am just shortly translated, Cr Barapor says, we have to understand that, what was, we will not in a teaching yesterday, so this is an extract, (2:20). part of two different understandings of the whole teachings, and interpretation of as an electron, which one is a Soul of Man, and which one is a proton, and which one is the Soul of the Creator.

As I said, we have to understand the time, position and space, and what we're expecting to see, from what, and to where it's positioned. Are we looking for the love of the Creator, or are we looking for the detachment of the man from the creation and the Creator, that, this ?? is in there, confirms the existence.

This is what the discussion has been. Some of these teachings, which goes on in different languages gets very exciting for translators, and what we call the participants. I have been in a few, and it gets very , very, ?? hot, and when one cannot understand the other, and one tries to stick to the ?? light.

As I was discussing with one of our Italian team members a couple of nights ago, in a conversation, that we have to understand our teaching. ... We have to understand our teachings, that when we teach, that not everyone is at the level of what we are. And some are ahead of us, and some just joined in. We have to be, in a way, equal that everybody takes something from the teachings, especially the translation groups, and in the workshops, which goes afterwards. A lot of workshops goes on around the Keshe Foundation around the world in different languages.

We should not look at the foundation just because of somebody who teaches something. And we see a lot of these teachers, who just been a little bit longer, they thing they have all the rights, and they are right in what they say. They cause a lot of problems for themselves, a lot of Knowledge Seekers. (2:22).

Any other question

Consciously traveling with Soul and manifesting physicality

Q: Mosveq .. We had discussion about, you know, turning bedroom into our lab. So this is I'm talking about an experiment I did in the bedroom. So this experiment is about lowering the field of the blood, so that the soul can travel, just like we do in the dream, but I was trying to do it consciously. My aim was to go to a specific location in Brazil, where I have visited my friends. I was doing it in my afternoon time. And when I could sense that I'm in that location. My senses were not as focused, but nevertheless, I could tell. When I got there, I will startled to find out it was daytime, because I assumed that it would be nighttime in Brazil, but actually, (2:24). it was early in the morning. So I felt, and I could tell the environment, it was not particularly clear, because it was my first time doing this. So and then I came back. So my question is, I could see that the soul travel can be done consciously. Of course, I need to work on it, but what I'm interested in is that, since I'm doing it in the bedroom, I can take my body with me over there. How would I design an experiment, some hints. How to enclose my body in the soul field, and do the traverse also. So it's clear that I can travel. Although I'm not good at it, but nevertheless, it work.

K- Your learning, your in the sandbox.

Q; Yes, I am in the sandbox. I want to see how I can extend it, how I can go from one part of the sandbox the other part.

K- Yeah, what happens? It goes by testing, or detachment. I've mentioned this before. I know one lady living in Bruges, in Belgium, who could do it, and she started doing it from childhood. And people like in Tibet, they could see her, she always went to the same place. Because it's the only way in her mind, where she would find peace, with what was happening to her in the dimension of physicality. In a way, she was there in physicality (P), and she manifests herself in P in Tibet.

She was physically abused by father, grandfather and brother at the same time, sexually. She was taken from pub to pub to be abused. This is tradition in Belgium, don't get shocked with it. (2:26). They open pubs and they abuse their children to earn money out of it. This is a tradition in Belgium, don't get shocked.

She came to me, and I used to go to her house to meet others. She wrote this and gave it to us as a paper, as a dossier. That, because she didn't want to face the abuse, the pain of men raping her, she managed to lock into and go in here childhood, wherever she heard that Tibet is somewhere, she can be there. She could be there, people could see her, she explained, and being aware, that the body's getting abused by men at the age of 6 - 7 - 8, whatever. And there are people who do this, because you want to do it. But she says she could do it every time, that the father, the grandfather and brother were together abusing her.

I explained, I tried, I met with her maybe 30 - 40 times, maybe more. And I tried to intrigue into this, to understand more, because how could she manifest herself in Tibet? She says, this is the where I could find peace, where my physicality in this dimension (D) had no meaning. When they finished with it, my father could pick the body up, and take into the other pub for the other man to abuse me.

So, it's not just exercising, it's that, you choose how and where. This is what I said, we can preplan it when you go to sleep. And we can accidentally go to sleep. You set, to get better to do it. Try to set it up, that you don't need to force yourself. It's like I said, we had two Spanish couples in Barilletta, they were sitting there, (2:28). the guy was trying to push, to see if the pen moves. I said, it's not done, you have to understand the soul of the pen, and you ask, if he wants to please you. Or you go to the next ?? step of learning more and more to do it.

You're not the only one, Mosqec, many, many Knowledge Seekers (KS) are taking this path. They're testing it and they're seeing what they want. And some of the Knowledge Seekers, preempt where they want to be, before they go to sleep, and in their physical dimension go through that path to where they planned.

I get a lot of Knowledge Seekers sending me messages or whatever, explanations of the dreams. And this time they could control it. You don't need to force it, if you understand it., preplan it, m not preplan it. You know, like I want to go to town today, to buy pair of trousers. I go to bed, I want to go see the uncle Sam, or I want to go to the zoo. Then you come to it, and see if you went to the zoo, when you woke up, and how much of the zoo you remember.

These are important for us. I learned through a number of people who I met in the circle with nun, and this lady, a lot about the fact, that how many women create that condition in Belgium,. Because some of them commit suicide, because they cannot take that, and they never learned how to let the physicality go, and just be there when you come back. Children abuse by the nation, (2:30). by this culture of Belgium, is as you go to cinema. If you haven't lived in it, you don't understand it. But then you understand the people who are the victims, what they went through.

And then you see, those who had the same experience, if they find each other together, then they gather together. They tell you their experiences, how they do, and what they can leave, detached from the physicality, because at the age of six, seven, and a man of 30 - 40 abuses you, the pain is too much. But the father gets paid. To you it's revolting, but it's a fact with this nation.

One day, you remember I had brought Alex out, in secret, I bring this lady out for her to explain to you. She's very open about it. And then you'll see that people actually do. I came to this group, through the Belgium security, who were appointed a nun, or a woman who looked after this children, who were abused by the priests from a young age in the church. Many of them couldn't accept, by just 17 or 18 commit suicide. I was asked to meet with this lady who's supposed to be finding a way to stop this process of abuse of the priests, raping 6, 7, 8 year old children. She said, I can't understand many of these children commit suicide, because they can't take it. They go to church to pray, and they get abused. (2:32). And nobody believes them, because they do it themselves ?? with it.

And many of them learn this, going through the soul, and detaching from the body, they do what they like with them, then they come back when they are finished.

We do that in the sleep, we go to bed, maybe we created the sleep for this purpose. It's not for physical repair. It's for our soul to have this time, to be on its own, because the physicality is locked here in this bed. Now we are trying to learn how to become conscious of where it goes, and we want to be the what you call, the decision maker in that travel. This is what it's about no more, no less. You will decide where you go. And then you need to practice

Q: I'm sorry, but I wanted to add, that it was not in a dream what I did. It was consciously or ?? (I was doing it consciously).

K- Yes, these people do it consciously. ..

Q: Yes. But I mean that's a more traumatic experience.

Consciously plan Soul travel before sleep

K- But let me let me explain this to you. Thank you very much for bringing this up. I understand what you're saying. That was the whole purpose, it's done consciously. But consciously you can plan it before you go to sleep. Before, in a way you force yourself to go there, now you know you go there, but you can preplan it tonight. "Okay when physicality is here, I decide I want to go and see what do you call it, uncle." Or I want you go to see another universe, another dimension, or I want to see something I haven't seen. (2:34).

Some of you, which will go through the Enhancement Unit flight system will reach that point. Your eyes will be opened to a new dimension. It's not the out of body experience, what I've seen written in one of the notes (chats). It is you deciding where the soul goes out of your body when it's in bed. When you put it there. Not in bed, when it's the sleep time, it could be on the sofa, it could be in the desert.

HERE >>

You allow that to grow. You're respecting the knowledge they bring back. You know it's like you say when I get a holiday I go and see the uncle. But time step time is a holiday time for the physicality the soul goes along with it. But you can decide more on more of your pack. St Louis and you're seeing it and gradually you're becoming to understand you can meet in mon dimension about the respect that wants to exist we don't need to bring that sufficient we take it as part of us and this is a beautiful this is the beauty of it i i In the course of the works in Belgium came across this group and are very precise and you can check it out so the combat is not just the dream or the it's something they wish because then you give yourself permission because Kevin was now the soul is dead he can do a create that dimension of the physicality how they look

MT Keshe 2:36:00

it's very very interesting a very interesting thing is with this abusive behavior indulgent that usually parents use the older daughters of the family two or three of them and you'll see the ones which are they enjoy the abuse or in a way they were part of it are very slim and the sisters who are not could not accept and cannot go to that acceptance that take pleasure from the abuse in a way because they've been in charge I've spoken about this before in other teaching now very fat Allah you see sister and a brother a sister and two sisters taken from pop to pop or people come home to abuse them and the pay the parents for it. The one who has been part of it and been there knows how can I try to do Oh no, I'm part of it. I enjoy it. Very slim. The other children are all fat. beyond some of them pandemic themselves so ugly, not to be touched by them by the men abuser more because there's more to abuse. And we've seen this you see this in Belgium quite up when you see two sisters on the street. I tend to the conference in Ronson were the people who are abused by this I gave a talk to the school. And you see wherever there are two sisters and when I pointed out to them, they know

MT Keshe 2:37:41

is us for choosers and how it's done
and how we did that so and what we accept and how we do it (2:38).
Have you managed to get stuck on your work?

Q: Stefania ... what you were talking before, about the circles. I noticed last week in the public teaching you made a big circle, that divided into one smaller, and one bigger. The bigger one divided in two, but the smaller divided in one. I wondering if it was a mistake?

K- No, it's just a process of teaching. It's just a process of teaching, because we don't repeat and repeat.

Q: Because I thought the bigger one was the ... I saw it like the Soul of the Man, that once we go that way with the Soul of the Man, we can then decide to make the physical soul, .. I think I'm confused because I thought today when you

K- is it confusing for all the Italians ??

Q: .. Then another things about the vacuum, because you ask us where the force fields come from. And I thought about that all week, and definitely the vacuum has something to do with it. (2:40). I was thinking, who is creating the vacuum. And I thought the vacuum, maybe it's created from intention, or recording the sensation of the feelings of the Creator. Because maybe the feelings of the Creator are so strong and so powerful, they can make this vacuum. But who make the intention of creating the vacuum?

Because, for example, in my work, every movement is connected to feelings, you cannot separate the two. So the vacuum is a movement of the fields interacting one with the other. So, it has to be a sensation connected to that. Because it cannot be separated, they are the same things. But then I'm thinking, who then created this sensation. Then I thought the sensation could be created from intention, because this is how we learn, how we learn how to, when we are babies. We create a movement, because we copy

something that we see every day, and then we copy, copy, copy, and we make all these movements until every movement is a sensation. So I'm thinking who created the vacuums. So this was my questions.

Who created the vacuum?

K- What we call vacuum, is a matter state combination of plasmas not to exist in that given pressure. In the world of creation, we don't have that, we have fields. (2:42). We have rays and particles as we call it. It depends when it becomes a plasma collection. We cannot have a vacuum of field, we can have a vacuum of collection of fields, we call a plasma.

Even a 100% vacuum in the world of matter state is impossible. Because we cannot create a field extraction strength of the fullest pattern of the what you call, energy. We tested this quite a lot in the lab. Because fortunately, we have a system here in Linz as well, which is a very powerful, a small chamber vacuum, a small chamber, we can reach up to minus 12 - 13, if we push it. But in Bruges, we could reach, but we could control, state by stage of the vacuum. We come go -2, -5, -10. And we could see the interactions of how, what we get in our systems.

When you go to -4 or -5, you get huge interactions in your reactor, because you have a vacuum everything out in all full spectrum. You still have some particles left. When you go to 10 or 8, you see change of the interactions. Because now you have less of plasma, but now you have more of fields. This is why our atomic, or what we call, nuclear sources work better. Because when you have the plasma of the elements, (2:44). as whatever. Our fields, our radiation will travel and gets absorbed by them, maybe 2 centimeters. But if we go up to, let's say -8 it will travel 6 cm. But if you go to -12 it comes 21.6 cm.

The fields are still there as a ray, nuclear atomic ray. But collection of the plasmas don't exist, because we extracted them. But then we see, what we call, a sharp pin, a pinch in it. We couldn't understand how suddenly we vacuumed the chambers, ?? and now we got a pinch. What we very quickly understood, was that because if you look at, all our systems are made of carbon, plastic combination of CH. The radiation was weakening some of these. So, some of these surface materials were released as atomic, and now became the material, that we had to vacuum.

Then, if you look, I was looking at one of these reactors, very recently, we came, if you were in the Insanno as Knowledge Seekers, you've seen it. We put copper laying into this, what do you call, into these reactors, that we Nano coated the Cu layer. That, we will not allow what you call, the fusion of the plasma. And we could keep the reactors very, very stable without the peaks in it.

So, we create vacuum in what we call, vacuum chambers, (2:46). but this is in a matter elements like hydrogen, or whatever. But we cannot create a vacuum of fields, M fields. It is not something which is impossible, it can be achieved, it is very hard to achieve.

But the only way you can do it is like opening, you know when you open a curtain two sides, and you peep your head in through between the two curtains. We can create, we have the knowledge to be able to create this, what we call, vacuum curtain, for a short time. And we have to close it, because maintaining it in a field dimension is very, very difficult.

I've done this many times, but I use it to allow cosmic rays in. It needs a very much deeper understanding of release of fields in dimensions where you can control it. This video, this same part of this principle goes back to the same with the EU. The EU have a Nano layer separation for this purpose, that we don't allow other fields to come in, and we can control the gravitational fields within our reactors, within our system.

So you can create a vacuum of the matter plasma, if you can get the full spectrum, or but it's very, very hard to create a zero fields. Even when we open a curtain, that curtain is for a specific strength, it's not for all the full spectrum of the strength, you have other fields going to that open window, (2:48). as they were going before. It is very, very hard to achieve a full, actually it's impossible to achieve a field vacuum. Plasma vacuum is possible it's very, it's very, not difficult, but it's achievable. And we will see this in the spectrum of the works of the flight units. That we create the conditions and this is one of the reasons we will not allow, or we changed dimension to a flight without the physicality.

I'll try to explain more of it, but zero field vacuum in the fields, its full spectrum is impossibility. It does not exist anywhere in the Universe. Because there is always fields. It's like neutrinos, we don't see them, but they pass through us, because we haven't managed, we haven't grasped that yet, of the total. We can create vacuum in a given spectrum of strength, according to what we want. And that's all it is. But matter state plasma, very, very difficult, because you always through vacuum, you degenerate part of the wall of your system. And we've seen it quite especially, if we use radioactive fields and it becomes harder, because you're radioactive, becomes the cause of the separation of what do you call it, the particles from the body of the reactor.

Any other question.

R: Would the Nano coated Cu be one of the better surfaces to resist that kind of impact.
K- Partially yes, but again, (2:50). you have to understand how you Nano coat. Because when you Nano coat, you actually create more free space, more free electrons to be freed, or atoms to be freed. Because you've created the space gap. When the particle is at the surface, it's tightly packed. When you put it in a Nano coat, now you have created that separation, and it's much harder to control. But there are ways that you can do this. But you have to know what, and how you do it.

R: If you had a working plasma in that Nano layer, that would repel the other plasma in the main part of the reactor, would that be a solution?

K- Yeah, it depends what purpose you're using it. What's the purpose of the work? Somewhere it could be advantageous, and other cases, doesn't mean, it could be dangerous. You understand. This is part of what it entails, it's horses for courses.

In specific reactors, especially, you've seen that copper reactor we have, which was used for energy production, the Nano coating on this is literally powder, you can scoop it, you can scoop Nano particles from the surface. It was built for that purpose, to build up energy in the layers, that the fields cannot escape. We use properties of the Nano layer to create that ... that resistance. You cannot do it with a matter state. You cannot put a mechanical system to block the fields.

But the reason you see a Nano layer black is because you create trap holes for the fields. (2:52). This is a technique, which we developed over years. And you have to understand how you do it, what thickness you're doing it, the reason you're doing it. Why are you creating this condition? What do you expect from the operation and testing. These are all ?? combinations, that's why I say you have to, not only understand, but when you make reactors, consider all aspects, all dimensions. And not just I think, this is what I'm going to do.

But then you are ignorant to what's happening behind the curtain by the fields and the materials. You're thinking you're actually creating a vacuum, but you actually are releasing more atoms, because your plastic is so weak, that allows you to do such a thing. If you've done the Coca Cola bottle creating the first, ... Gans's, and as a trap the Coca Cola bottle test, you see that in two spots in the bottle, you get holes and the cap of the Coca Cola bottle dissolves. But you never thought, but you thought it created a good condition, but you're actually releasing more and more .. atoms from the layer of the bottle into the environment. It's not a vacuum, it gets more denser material. You think you're working at -10, but you're actually plus 20, because you never considered that the ... wall of your Coca Cola bottle, is releasing millions and billions of atoms into what you thought was a vacuum.

We do that in the testing of the creation of a specific fields, (2:54). we cannot contain. We need a specific field strength. Especially when we use helium ?? Helium escapes through the wall, it's one of the most nastiest things to work with. And we spend time trying to find a way to hold the helium. It was really simple. I walked into a balloon shop and the guy was rolling up the balloons with the helium gas for children. And I said, he said you cannot hold the helium, we can only spray the wall of the balloon ?? he sprayed into the balloon was a helium sealant.

I took it, I bought, I went, I tested it, and it works. I can hold helium within the containers. But then you have another problem within the structure you have to sort out. It depends what you want to do, and what tests you are doing. You're well into this Rick. You know exactly what I'm talking about.

Q: Stefania .. when you were talking just now about us traveling with the soul. So when we're traveling with the soul, all this is not a problem? We don't have a problem with ..?

K- No, you never had a problem to solve, because we dream every night. So you have to find out what you haven't understood. What you're doing when, ?? you let the body loose.

Q: But for example, when we were in the Mozhans, you remember , you told us the next day you are going to fly. So we were 4 people with intention to make a spacecraft. (2:56). And then I felt this pulling. And I was wondering if that pulling was, when you said, when you balance the fields. You said just now, the pilots have to equalize the fields with the Enhancement Unit.

So, I was wondering, when I felt that force lifting, it was like coming from underneath up, and that difference of weight. If it was this building up of fields, to then have this rejection, like this (neutron) decay thing happening? I was wondering, because with humans, I suppose we are vacuum, you said last week. We are also vacuum, being (our body is in a) vacuum. So, we could do it between us easier than this. Now I understand why you said the Enhancement Unit is an (enhancement). It can enhance what we can do.

Our intention is fulfilled - when it's for the totality - for others

(proofed)

K- Yeah, but it depends how you are, and what is the reason. If the reason is correct, and it's for not you, but let's say the benefit of the others, or benefit of another person than you, you always can reach it out very quickly. I had this experience in past couple of days, the foundation needed have massive support. And I reached through my soul and the person felt there is something. When I call on the phone, the person said, I already had a feeling, because the desire is for the elevation of the soul of the foundation. It's not for me. (2:58). And that response was sincere enough to be passed through the Soul, before the physicality could feel it.

We do not abuse our knowledge. But when there is a need, we convey the knowledge. We say, "oh, I felt something." It's not, because the soul has already been reached. The need was there, and it's sincere, and it's for the betterment, elevation of the whole foundation. It's not for a person. We learn this, we start communicating at the soul level. We start to understanding it's my soul who has received it, so physicality is just a servant.

It does not matter what stage it is, what we consider it to be. If the desire is sincere, and it's for elevation of another soul, or a totality, it always works out. Physicality is just a servant. We see this on a regular basis. I reach Knowledge Seekers through the wish of the what I call, enlargement, elevation of the soul of the foundation and humanity. And it is always answered. Then we go to terms of physicality, we talk about how it's going to be done.

This is something that Knowledge Seekers gradually will understand. You don't anymore think the same, your soul works to bring the same. It's a very big difference. You say, "I was just thinking about it, or I just felt it." It's not that. It's just that the souls work on the same process, the same understanding, and for the same purpose. It doesn't matter what happens around it. (3:00).

I always said, I know the way to reach the Soul of the Man, and then it's the STM who brings in the dimension of physicality. I came in (to the world) with nothing, and I go with nothing. The whole purpose is to bring that change, to bring that elevation that in the future no man kills. No animal on this planet commits a crime, being, taking from another soul. But this is the whole entirely, understanding of the process of the teaching.

Any other question.

Q: Brazil. .. He says, an immense spacecrafts has been found in some underground in places like Ukraine, Russia, Central Brazil, Antarctica, and others submerged in the Atlantic Ocean. They called them arcs. They were left on the planet millennia ago by another race. They realized that two or three civilian humans with specific DNA, upon entering a specific room could trigger the functioning, with only their presence and mental intent. A sort of shimmering blue plasma bubble was formed, and a sort of Portal was formed, (3:02). through which instantly soldiers who were on another arc, Russia location, were transported to that arc, the Atlantic location. Are you aware of these facts? Would this be the same technology used in the space plasma unit?

K- Are we being honest? I have no clue what you're talking about. I heard about this things. There's a lot of talk and things. But what you talk is not something out of reality? You got to understand, that when you're dealing with space technology, the way people of the universe do.

They are not just because you saw a spaceship running above Jerusalem, and disappeared. That ?? elevation, which comes from another position universe gets into problem. And what does it do? They don't land on the surfaces, their plan was to go into the center of the earth to see the beauties of the interaction of the fields of the plasma and their system malfunctioned. So, somewhere in between the two, or at the entry and the change of fields, the thing happens. And you lose everything.

This is why going back to the teaching of today I said, we set up a system, which has no dimension of tangibility. That's one of the reasons for it. When you ?? throw in space dimension, you have to accept this pitfalls. You have to understand these pitfalls.

Earth is a beautiful place. It's like you go to see Niagara Falls. (3:04). People of the universe come to see earth, the beauty of it. And sometimes the system fails, sometimes the captain gets, falls in love with a mermaid of the earth, then gets distracted, and the whole spacecraft gets stuck somewhere in the middle of the ocean, or between the rocks while is going to the center, or somewhere else.

What happens with our aircrafts when they crash? We go and find the black box to see what happened. These crafts, now understand we are not the only citizens of this planet, and this universe. Then you understand our visitors crash. The crash with them doesn't come in the form of .. the scattered pieces. It comes with a failure and depends on the structure, and magnetic field is set there.

These are part of the facts of the space travel, and then if you want to add to it, oh yes what happens to you if you got ship (wrecked) on the high seas? You abandon ship. Where do you send it to. When you abandon ship, when you have the rescue teams coming. do the people just jump in the ocean, or you take them to another ship? Would that be any different? When we have a malfunction, we can contain the structure, but you can rescue or move people from one to another. We do it in a normal way, why should it be any different in this position and direction.

It will happen to all of us. This is why we prefer you to understand the position with the dimension, or without the dimension of physicality. Even at the level of the Soul, if you get it wrong, (3:06). you can get trapped in a stone. Now we have a beautiful saying, you know you want to go somewhere, and you get stuck in the rocks. Because even this stone has a soul. Then we say in Farsi, we got a beautiful saying, ?? ?? means he brings the donkey and tries to go to that ?? way with the ?? piece. It's impossibility. You have now to find a way to create a condition in your system, it has failed. You do not create the fields to be able to move.

So it's normal, but to you, you put elaborations on it, because it happened, it's a spaceship. If and when we find these spaceships, confirms that Earth has been tourist points for millions of years. And not all the tourists managed to get out, sometimes they crash landed, sometimes the system changes fields, or fields of the gravity of the earth creates a condition, that they lock in that position, it's that MaGrav position. Now that we understand the truth about space technology, we have to understand the Totality, and understand is a possibility.

Go back to the teachings over past the years I've been trying to explain to you. We lose many of our earthly beings, in the space travel due to accidents, malfunctioning of systems. Just because you think you've got to the plasma technology or you can fly with a UFO, you have no problem. As American say, wake up and smell the coffee. (3:08). You have to understand there is a failure in every system.

Even if you look at it, there is a failure in the Creator's system, that He setup to be the Man. We are trying to fix it. And it's abandoned ship in this in the U of the Creator.

Don't think for one second just because, because, because we found the space technology now we go with UFO. You have as much failure, as you have with the Boeing Airbus, the yacht on the water, the car on the streets, and everything else which goes with it. It's you who has to understand and accept the risks.

In the past, when we were on a donkey, the maximum could happen you fell off and broke a leg. We went to the cars that maximum could happen, is you crashed the car, you broke your leg, and then you might die. We went with flight system and we saw a couple of shuttles on entry, and whatever, they got exploded. And the same thing happened again. We'll have the same thing with what do you call UFOs to come.

It's a natural process of failures, of the interaction of the fields, then the way you expected. Don't think that space technology will be all hunky dory, that's it, now we travel. Even we give you the shields, we give you the protection, we give the high speed transmutation. This is the effect of the field plasma of the universe, which we interact. (3:10). Nothing is 100% air tight, and proof. As I always said, even the Creator made a mistake, He did not keep an eye on the ball, and led to the creation of the man did all the mayhem we see. If He can still have position to correct, it's for the man ?? and the position of the man, ?? what he is learning and trying to ??

Any other question.

Q: .. Why can't I see a structure in the teaching? Two months ago, it was about learning to go from Gans to matter state, then we jumped to the COHN, and C isotopes, it feels like reading random chapters of a book?

K- Nothing is random, because we have, as I said, a diversity of the knowledge and diversity of people as Knowledge Seekers. In this classroom, we have to teach the children. You know you go to a village with one classroom, and you have 20 children in a village. The school is one room and one teacher, the government cannot afford any more teachers to send. Because all the teachers in the past, and other villages have kicked them out. So they're in that village and they have to go with that.

We have one teacher, and 20 students from nursery, two and a half years old, and the guy who was 18, and going to university, before we ?? invest. (3:12). The teacher has to know how to talk to the nursery, and how to talk to the guy to be ready to go into university. Unfortunately, we have millions of listeners, and we have a spectrum of knowledge to teach, with all of them. But every time we teach, we cover one part, that everybody is learning, but adding to the knowledge. It's amazing how, some of you, to you when you jump to something else. Because in one part, we are making some of the scientists in the Keshe Foundation ready for ?? that space, understanding of gravity. In another part, we make you prepared to understand the structure of the physical matter state. Because those who are working that way, they need nudge up.

My soul is aware of the need at a time, and the place, and what needs to be taught. As I've said, some of you, half of you sit there as, what am I doing here today. But you hear something, and maybe in two years time, maybe in two weeks time, you say, now I understand what that teaching is about, and what it meant, and what I can do with that knowledge which was shared.

It's not sporadic, it's very, very well designed, and it fits into each other the way it is. We have to understand, some of you join us in the nursery level, and you're just ready to go to the second, or the third class. It's the same teacher, but now we're still getting those who come through nursery. And the students sitting in the second and third class, have to listen to what we teach in the nursery. but in that way they look at the new way, in what they were taught in the nursery, but it's the same subject.

We are very structured. (3:14). I don't teach by man, I teach by the direction of the soul, and most of you have understood this by now. I never carry a note. Teaching is a teaching through the soul and a dimension, which is done by the process of the creation, step by step. We are Messengers, we are not here teachers, and you have to teach and you have to follow. As I said to one of our Knowledge Seekers yesterday, or the day before is, you have to be there just to share, not dictate.

The teachings very precise and it's exactly on course. You cannot teach on one day everything, you have to bring that child from nursery to graduate. Just because today doesn't mean anything to you, it means a lot to the people who already been in that process of.

As we said, teaching when we talk with Mosvaq, and he said, he is trying. Now we understand a lot of Knowledge Seekers are there. A lot of KS, some of them, they don't succeed, because they haven't understood, they bring the dimension or physicality into it.

I never use a single note, and the teachings are at the level of the Soul. And as one of the ?? Knowledge Seekers tells you, by the voice, we know if it's a Messenger teaching, or the man. If it's the message. We are Messengers of the Creator and we have no problem. We share knowledge freely, because it's part of the structure for man to elevate itself. It doesn't matter what they try to stick to us. (3:16).

When you look, how many kings and queens, and world leaders do you remember from the time of Christ? You're still looking? Because it's the king of the souls, not dimension of physicality (P). It's the same soul, it doesn't matter which way you turn it? Which name and what time you give it?

Any other question?

Lucid dreaming is really working in the Soul and P dimensions

(3:17:05 to 3:27:23)

Q: .. .Hello. I like to ask about vivid dreams like lucid dreams?

I'm originally from the Dominican Republic. And I live in New York. I'm a pediatrician. I would like to ask about vivid dreams, or lucid dreams for the average person. Like my personal experience, when you mentioned about that, you know, our soul travels every night. It's been very real for me, because I have so many lucid dreams, that I have, ?? these dreams, since I was a child. Like I have visited so many worlds, (3:18). and so many beautiful experiences. That when you talk about that, me being at the nursery of this knowledge, as you just said. It resonated really, about this capacity to travel, and have what I have learned, are vivid or lucid dreams. If you could please elaborate further, I would appreciate that?

K- Let me explain. I have done this before, maybe we explain it in a different way. This is the body of the Man (draws a circle), and this is the STM (draws a dot in center). In different layers of the structure of the brain ... We have different things, memory of the

senses of smell, memory of the position, memory of love, and different parts of the brain has different functions.

The soul, when the fields the strength of the skull with the blood circulation, which is very thin, but very effective. When you go to sleep, it changes. So this field (STM) can go up to here (edge of skull), when you're awake, and create a dynamic field flow, a strong containment. But it's still some of it goes through (beyond the skull), that you see as whatever, dream.

When you go to sleep, or ?? wake up ?? see ??? you still reduce the fields, and you travel. But it's a MaGrav system. You come to a position, and you interact with something, and this (STM) has the same back there (in the center of brain). As you give information, you show emotion to this (outside the brain) fields, it could be the mother, the grandmother, or whatever. It response back. The body of the man has the capability, in the brain, (3:20). to remember, okay, you're with two eyes, you're driving, and you're looking at the front, in the physical dimension.

The body is transferring the information, red light - stop, or somebody got hurt - we can do, or go faster. But the other one, the soul is still working too, and is crossing these fields (Soul is interacting also within the brain), these emotion positions as well.

So, you are registering the physical information, and this (STM) is registering with the same cells, the Soul ?? information. Then you call this, (these registering), in a dreams. Because now, the soul of the cell of the brain, remembers the communication of the soul level. And the what we call, the dimension of physicality, remembers what you see and ?? .

So what you call your dream, now we understand. It's not a dream, man has been what we call, a schizophrenic life. D of physicality, and dimension of the Soul of Man. We call it a dream, it's not a dream. Now we have to understand it, the two dimensions. It's very much like a woman. Multitasking, doesn't matter day or night, this entity, this Soul of Man radiates, and creates different information and different impressions on different parts of the bank of the ?? the side. You've got to realize something, which is, I tried to explain before, maybe in a much clearer way. (3:22).

Every cell in your brain has a soul. And that soul, and that soul, has the strength to interact with the STM. Because then it carries the emotion of physicality, and emotion of the Soul. This is something that you have, once you understand it, then the life becomes very, very simple.

Your brain is stereo system, one emotion D of physicality, and at the same time D of the Soul, and ?? source of the creation. So is it ?? illusion ?? or you're working in two dimensions. But up to now you didn't understand this. If you become very clever to it, you can do the same too, but be aware of the two multitasking. What Mosvaq said he is trying to do. He's aware he is there, but he's trying to push the opening of some of the others. Some of us we do it naturally.

As pediatrician, you see children are very good at it. They tell you, I've seen something, and they ?? drew something, says something is there. It's there, because they see it through the fields of their soul. And by (being) dependent on a matter of state, the older we get, the more, and more, and more we deceive ourselves from this ?? field. Typical Europeans say, because of their ignorance, they say, "I believe it when I see it."

So it's not ?? elucid (lucid dreaming). Now you have to understand you work with the dimension of both in the same structure. (3:24). When the time of the physical death comes, these information's are downloaded into the Soul. So, when your soul leaves, the Soul of Physicality, or soul of the cell of the brain, ?? memory downloads, passes on, and becomes part of the information of the soul, or it's ?? investage.

You do the same thing. But if you look at the structure of the physicality of the Man. You have your reproduction, at this end, it continuously transfers, you call it the RNA or DNA, the soul RNA to your next generation, that is not just that you carrier, transfer, RNA of physicality, and RNA of the soul, or what do you call, the information of the RNA, physical life. You download the soul continuously. The information the soul has gathered from all dimensions into your next ?? ??

There is a reason why the physical life on this planet always has two ends. I explained this, the Soul of the Man, and the soul of the little ones, we call your reproduction ?? . It creates that (draws Infinity Loop interaction) to feed, to register, to memorize. And to create the condition of position, you call it RNA and DNA. But the same thing exists in the D of the Soul. You have a dimension of how physicality has to be in dimension of the Soul, when it manifests itself. We have a lot to learn, and you don't lucid dream. Now you understand, you're working on two levels all the time. (3:26).

It's us to understand which, and how it is. I live in that D ?? 90% of the time. Even when you ?? write to me, I'm awake, (but) they tell me I am asleep. I said, no, I was awake. They say, you were snoring. Yes, but that's the physical side, but I'm busy doing other things. And then you have to move the physical, not to snore, or move something, but in fact, you're working in your D. 90% of the time, I physically look, or asleep, ?? and they tell you, I say, I don't know. Because you're supposed to hear us. But I don't hear it, because I'm too busy doing something else. It's a 24 hour work, it doesn't stop.

Then when you go into the D of ?? , oh, it's already arranged without the soul's ?? ?/ do this, and it's done. We do most of the work as they say, behind the curtain in the dimension of the Soul.

Thank you very much. Can we call it a day.

Thank you very much for today, (3:28). I hope we learned a little bit more and we shared a little bit more. ... how we can bring about the .. after the addition of the knowledge.

I just received a note from the Keshe Foundation management team. And just to remind you, that ... the first three workshops are in English. And but since the teachers speak also German, they can have the workshop in both languages. So even those who do not know English, but just speak German can participate.

I don't think language has ever been a problem. Keshe Foundation on these workshops will find a way to do it. Thank you very much. The example let me explain to you, when it comes to the soft artwork. The Artist is Romanian. So if you're Romanian you can participate, if you don't speak English. You're the your teachers is fluent both in English. And we have artists from around the world who join us in these teachings and workshops and language be bad.

Thank you very much. And we'll see you next week.

432 KSW May 12 2022.

END
